Maths Grade 11 2014 Eastern Cape P:

Multilingualism in Mathematics Education in Africa Anthony A. Essien, 2023-12-14 This book brings together the first book collection of African research in mathematics education in multilingual societies and chronicles current research in different linguistic contexts across the African continent including Algeria Namibia Malawi Morocco Rwanda South Africa on issues of multilingualism in mathematics education but more importantly it foregrounds pertinent issues for future research With many of the authors building on earlier path breaking African research the book is a unique contribution of careful thinking through how linguistic diversity and multilingualism manifest in ways that differ from one geopolitical context to another This volume is an important contribution to the growing recognition of multilingualism as the global linguistic dispensation in mathematics education It is an invitation to how we might as an international community where more and more multilingualism is the norm rather than an exception pay more attention to the multilingual agency and capabilities of both students and teachers in order to better harness the epistemic potential of multiple languages in contexts of language diversity in mathematics education *X-kit FET Grade 11 Mathematics* Irma Kühn, 2007

Multiliteracies in International Educational Contexts Gabriela C. Zapata, Mary Kalantzis, Bill Cope, 2023-12-22 Multiliteracies in International Educational Contexts Towards Education Justice examines how multiliteracies and Learning by Design have been taken up across international second language instructional contexts with a focus on inclusive practices and social justice This edited collection brings together a team of international contributors to offer a global perspective on the application of multiliteracies in L2 education Through the analysis of classroom based qualitative and quantitative data on different aspects of the multiliteracies pedagogy the book shows how the multiliteracies pedagogy can facilitate more inclusive practices while providing suggestions for pedagogical interventions and future research This book will be a key resource for language educators researchers and practitioners interested in the multiliteracies pedagogy as well as those interested in critical and social justice approaches to language teaching

Globalisation, Ideology and Education Reforms Joseph Zajda, 2020-06-17 This book analyses the nexus between ideology the state and education reforms worldwide The research evinces the neo liberal ideological imperatives of current education and policy reforms and illustrates the way these shifts in the relationship between the state and education policy are affecting current trends in education reforms and schooling around the globe With this as its focus the chapters represent hand picked scholarly research on major discourses in the field of global education reforms Offering a compendium of the very latest thought on the subject this book is like the others in the series a state of the art sourcebook for researchers practitioners and policymakers alike Not only do the chapters offer a timely analysis of current issues shaping education policy research the work also contains ideas about future directions that education and policy reforms could take By doing so it provides a comprehensive view of the diverse and intersecting discourses on globalisation and policy driven reforms in education The book draws on

recent studies in the areas of globalisation education reforms and the role of the state Respective chapters critically assess the dominant discourses and debates on education and policy reforms Using diverse comparative education paradigms ranging from critical theory to historical comparative research they focus on globalisation ideology and democracy and examine both the reasons for and outcomes of education reforms and policy change *Languages, Identities and Intercultural Communication in South Africa and Beyond* Russell H Kaschula,2021-08-23 African countries and South Africa in particular being multilingual and multicultural societies make for exciting sociolinguistic and applied language analysis in order to tease out the complex relationship between language and identity This book applies sociolinguistic theory as well as critical language awareness and translanguaging with its many facets to various communicative scenarios both on the continent and in South Africa in an accessible and practical way Africa lends itself to such sociolinguistic analysis concerning language identity and intercultural communication This book reflects consciously on the North South debate and the need for us to create our own ways of interpretation emanating from the South and speaking back to the North and on issues that pertain to the South including southern Africa Aspects such as language and power language planning policy and implementation culture prejudice social interaction translanguaging intercultural communication education gender and autoethnography are covered This is a valuable resource for students studying African sociolinguistics language and identity and applied language studies Anyone interested in the relationship between language and society on the African continent would also find the book easily accessible

Engineering Design and Mathematical Modelling Nnamdi Nwulu,Mammo Muchie,2020-12-17 Engineering Design and Mathematical Modelling Concepts and Applications consists of chapters that span the Engineering design and mathematical modelling domains Engineering design and mathematical modelling are key tools techniques in the Science Technology and Innovation spheres Whilst engineering design is concerned with the creation of functional innovative products and processes mathematical modelling seeks to utilize mathematical principles and concepts to describe and control real world phenomena Both of these can be useful tools for spurring and hastening progress in developing countries They are also areas where Africa needs to skill up in order to build a technological base The chapters in this book cover the relevant research trends in the fields of both engineering design and mathematical modelling This book was originally published as a special issue of the African Journal of Science Technology Innovation and Development
