

### **Pensamiento crítico: explicación, análisis y evaluación**

Las siguientes palabras y expresiones a menudo indican pensamiento crítico. Las palabras en negrita son términos clave en los distintos criterios

**Explicación:** porque, como resultado de, debido a, por tanto, en consecuencia, por ejemplo...

**Análisis:** es más, no solo esto, sin embargo, pero, por el contrario, del mismo modo, además, por otro lado, no obstante, como consecuencia, de manera similar...

**Evaluación:** en mi opinión, en general, pese a que, aunque, en conjunto, sopesando...

Los examinadores deben recordar que, en algunos casos, puede que los alumnos presenten un enfoque distinto que, si es adecuado, debe calificarse positivamente. En caso de duda, consulte con su jefe de equipo.

- En el caso de las preguntas que piden "identifique...", lea todas las respuestas y califique de manera positiva hasta la puntuación máxima correspondiente. No tenga en cuenta las respuestas incorrectas.
- En los demás casos en que una pregunta se refiere a un cierto número de hechos, por ejemplo, "describa dos tipos", califique las **primeras dos** respuestas correctas. Esto puede implicar dos descripciones, una descripción y una identificación, o dos identificaciones.
- Se debe tener en cuenta que, dadas las limitaciones de tiempo, las respuestas a las preguntas de la parte (c) probablemente tengan una gama mucho más reducida de temas y conceptos que los identificados en la banda de puntuación. No hay respuesta "correcta". Los examinadores deben estar preparados para otorgar la máxima puntuación a las respuestas que sinteticen y evalúen, aunque no cubran todo el material de estímulo.
