

# European Commission Kosovo's Progress Report 2014

---

October. 8 2014

## Conclusions and recommendations on Kosovo:

1. Completion of the negotiation of a Stabilisation and Association Agreement with Kosovo and its initialling in July is a milestone on Kosovo's European integration path.
2. Kosovo faces numerous challenges: the rule of law, including judicial independence, and limited results in the fight against organised crime and corruption remains a major concern. The implementation of the anti-corruption strategy and action plan fails to generate effective results, due to weak political support.
3. With a low number of actual convictions and drug seizures, Kosovo is at an early stage in its fight against organised crime and corruption. Law enforcement agencies are reluctant to initiate financial investigations and the number of cases of freezing and confiscating assets ordered by the judiciary and executed by the police continues to be low.
4. The new government and parliament need to show zero tolerance towards corruption and organised crime and a clear political will to the effective fight against corruption and organised crime. Kosovo's political class needs to demonstrate its readiness to accept the outcome of independent judicial processes.
5. The implementation of the strategy (2010-13) and action plan (2012-14) on public administration reform has been a major challenge for Kosovo, delivering very limited results. Kosovo also needs to adopt a law on general administrative procedures, which is crucial for the development of a business-friendly environment. While some public financial management rules and regulations are in place, Kosovo should ensure a more comprehensive approach to the reforms in this field.

*Landmine Monitor 2009* , The International Community and Statebuilding Patrice McMahon, Jon Western, 2012-02-07 This book brings together policymakers and academics to analyse the international community's performance in post war statebuilding projects In the past twenty years statebuilding has emerged as a centerpiece of international efforts to stabilize violent conflicts From the Balkans to Iraq to Afghanistan it has become widely accepted that statebuilding defined as the development of transparent and accountable political institutions stable and sustainable economic structures professional public administrations and civilian controlled security services is essential to the long term stability of post conflict settlements The International Community and Statebuilding brings together senior level policymakers and academics in order to analyse the international community's performance in post war statebuilding projects Filling an important gap in the existing body of work on this topic the contributors explore how international state builders have attempted to negotiate the intersections of multilateralism competing strategic priorities and agendas organizational complexity and domestic politics This book will be of much interest to students of statebuilding peacebuilding war and conflict studies and International Relations in general Competition Law and Policy in the Western Balkans Jasminka Pecotic Kaufman, Gentjan Skara, Alexandr Svetlicinii, 2025-08-01 This book provides a comprehensive analysis of competition law and policy in the Western Balkans by assembling and examining reports from Albania Bosnia and Herzegovina Kosovo Montenegro North Macedonia and Serbia It explores the evolution of competition law and policy in these jurisdictions and assesses the extent to which their domestic legislation aligns with the EU competition acquis Our research takes a bottom up approach focusing on the unique challenges faced by each jurisdiction within the context of their respective legal traditions The volume includes institutional and enforcement empirical data collected and analyzed for the period 2012-2022 offering original insights into the development of competition law systems in these countries The book addresses a range of issues including the historical development of competition law and policy in the Western Balkans countries their institutional and legislative frameworks the peculiarities of the national competition law systems that significantly differ from the EU acquis the features that have been amended in the process of European integration the application of domestic and EU competition rules by national competition authorities enforcement and sanctioning statistics judicial review private enforcement of competition rules and future challenges This edited volume provides an authoritative and rigorous overview of competition law and policy in the Western Balkans making it of interest to academics students and practitioners in the field of competition law *Landmine Monitor 2010* , 2010 **Transnational Organised Crime in International Law** Tom Obokata, 2010-08-17 There is extensive and detailed academic literature on the legal development of international crimes such as war crimes and crime against humanity However not much attention has been paid to other serious crimes including narcotics related offences human trafficking and money laundering which do not necessarily amount to international crimes in the traditional sense The

purpose of this monograph is to fill this gap and offer a critical analysis of developments in the field of transnational organised crime under international law. The book is divided into two parts. Part I is entitled Norms, Principles and Concepts. It traces the history of organised crime and explores key concepts and norms relating to the practice from a multi-disciplinary perspective. It then looks at legal obligations imposed upon States as well as non-State actors in relation to transnational organised crime. Part II illustrates how these norms, principles and obligations are translated and enforced in practice. This will be done through case studies at the level of national law (Thailand, Serbia) and the UK, regional law (European Union) and international law (United Nations). A book of many parts, its thematic coherence comes from its devotion to identifying the social threat posed by organised crime and the legal steps taken at the international and national levels against that threat. Rich with example and illustration and written in a light, direct style, it will provide a lucid guide for practitioners, policy makers and students to the largely untraversed territory of the international legal system set up to suppress transnational organised crime. Professor Neil Bolster, University of Canterbury, New Zealand. The international law governing organized crime is a close relative of the body of law applicable to the International Criminal Court and similar institutions. It provides a forum to address issues of more general concern such as the scope of universal jurisdiction, immunities, statutory limitation and extradition. Tom Obokata's study, with its original and in some ways unique perspective, enriches our knowledge of the field. Professor William Schabas, Irish Centre for Human Rights. The book is well written, its documentation is quite exhaustive and its thesis is timely and compelling. Professor M. Cherif Bassiouni, DePaul University College of Law.

**Annual Review of United Nations Affairs 2009/2010 VOLUME IV** Joachim Müller, Karl P. Sauvant, 2011-04-15. The set generally Since the publication of its first edition in 1950, the Annual Review of United Nations Affairs has stood as the authoritative resource for scholars, students and practitioners researching the latest developments of that august body. From the insightful introduction prepared each year by a distinguished expert on UN affairs to the full text presentation of reports and resolutions and the helpful subject index, ARUNA provides a practical tour of each year's UN actions and debates. The expert selection of documents by Joachim Müller and Karl Sauvant and the topic-based organization of those documents make any researcher's task much easier than the vast searching, sorting and pruning required by the UN's website. The series' topic-based organization of the materials and subject index lend invaluable guidance to all researchers. ARUNA presents comprehensive documentation of the work of the UN on an annual basis, starting in September of each year with the beginning of the regular sessions of the General Assembly. Coverage of the UN's key organs is provided, including the General Assembly, the Security Council, the Economic and Social Council (ECOSOC), the International Court of Justice and the UN Secretariat. In addition, selected reports of intergovernmental bodies and expert groups are included. Solely official UN documentation is used. ARUNA occupies a special place in the publications on the work of the UN as it allows readers to obtain an overview of the principal developments in its key organs. This makes it an important reference source for policy makers and academic

editors this introduction is intended to facilitate access to the material and above all to make it easier for users of ARUNA to see the forest for the trees. This year's ARUNA includes excerpts from the Report of the Commission of Experts of the President of the United Nations General Assembly on Reforms of the International Monetary and Financial System 21 Sept 2009 and from a slightly edited version of a Preface to that report written by Professor Joseph E Stiglitz. Jose Antonio Ocampo ARUNA 2008 2009 edition Professor Jose Antonio Ocampo is Co President of the Initiative for Policy Dialogue. He is also Professor in the School of International and Public Affairs and Fellow of the Committee on Global Thought at Columbia University. Jeffrey D Sachs ARUNA 2007 2008 edition Professor Jeffrey D Sachs is Director of the Earth Institute at Columbia University and Special Advisor to the Secretary General of the UN on the Millennium Development Goals. Professor Sachs's introduction to ARUNA 2007 2008 was titled *Towards a New Global Protocol on Climate Change* in which he argued that solving the climate change problem will demand four steps: scientific consensus, public awareness, the development of alternative technologies and a global framework for action. He dealt in particular with the science underpinning the negotiations for a new global protocol on climate change as a successor to the Kyoto Protocol. Professor Sachs argued that climate change crises can only be solved through the goals, leadership and treaty mechanisms of the UN. Edward C Luck ARUNA 2006 2007 edition Professor Edward C Luck is UN Special Advisor on the Responsibility to Protect and Vice President and Director of Studies at the International Peace Academy. From 1984 to 1994 he served as President and Chief Executive Officer of the UN Association of the USA. UNA USA Professor Luck's introduction to ARUNA 2006 2007 covered *The responsible sovereign and the responsibility to protect* in which he addressed the scope and content of what was agreed at the 2005 World Summit, the implications of the responsibility to protect (RtoP) for notions of state sovereignty and some of the conceptual, architectural and policy challenges then facing UN Secretary General Ban Ki-moon's commitment to operationalizing the responsibility to protect and translating it from words to deeds. Louise Frechette ARUNA 2005 2006 edition Ms Louise Frechette is Distinguished Fellow at the Centre for International Governance Innovation, Waterloo, Ontario. Until March 2006 she was the first Deputy Secretary General of the UN; before that she was Permanent Representative of

Canada to the UN Ms Frechette's introduction to ARUNA 2005 2006 covered United Nations reform an unfinished story As the first Deputy Secretary General of the UN Ms Frechette was uniquely positioned to undertake a personal assessment of what has changed and what has not changed in the past decade at the UN and why She examined if the UN is functioning better than it was 15 years ago why reform is so difficult to achieve and what the future holds for the institutions Rubens Ricupero ARUNA 2004 2005 edition Mr Rubens Ricupero is Dean of the Fundacno Armando Alvares Penteado FAAP Sao Paulo and was formerly Secretary General of UN Conference on Trade and Development UNCTAD and Minister of Finance of Brazil Mr Ricupero's introduction to ARUNA 2004 2005 covered The difficulty of building consensus in an age of extremes and examined the mysteries of the negotiating process leading to the outcome of the 2005 World Summit Rather than a Grand Bargain of a comprehensive UN reform in the areas of development security and human rights it is argued that the Summit ended more on a note of lamentation and regret over a missed opportunity Mr Ricupero concludes that contrary to the daring proclamation at the outset by the Secretary General the conditions indispensable to succeed were not in place Indeed it was hard to imagine that an ambitious and balanced reform package for the UN could have had any real chance of succeeding
