Modernity Jan M. Ziolkowski, 2018-10-31 This ambitious and vivid study in six volumes explores the journey of a single electrifying story from its first incarnation in a medieval French poem through its prolific rebirth in the nineteenth and twentieth centuries *The Juggler of Notre Dame* tells how an entertainer abandons the world to join a monastery but is

suspected of blasphemy after dancing his devotion before a statue of the Madonna in the crypt he is saved when the statue delighted by his skill miraculously comes to life Jan Ziolkowski tracks the poem from its medieval roots to its rediscovery in late nineteenth century Paris before its translation into English in Britain and the United States The visual influence of the tale on Gothic revivalism and vice versa in America is carefully documented with lavish and inventive illustrations and Ziolkowski concludes with an examination of the explosion of interest in The Juggler of Notre Dame in the twentieth century and its place in mass culture today In this volume Jan Ziolkowski follows the juggler of Notre Dame as he cavorts through new media including radio television and film becoming closely associated with Christmas and embedded in children s literature Presented with great clarity and simplicity Ziolkowski s work is accessible to the general reader while its many new discoveries will be valuable to academics in such fields and disciplines as medieval studies medievalism philology literary history art history folklore performance studies and reception studies *Radical Humanism* Robert K. Beshara,2025-12-19 Radical Humanism uses concepts from Marxism anarchism critical theory psychoanalysis and African Asian and Latin American philosophies to critique bourgeois liberal and Eurocentric humanism s from the perspectives of Indigenous studies Black studies and postcolonial decolonial studies The book problematizes and expands the Euromodern conception of the human to document and develop critical epistemologies ontologies and methodologies that honor the complexities of humans around the world It takes a particular focus on those who have historically been excluded from the category of human including Indigenous Black and Global Southern humans Contributors critically engage with humanism from a pluriversal perspective honoring non European ways of knowing and being while providing a dialoguebetween multiple voices and viewpoints The book will be of interest to scholars and advanced students interested in decolonizing perspectives in psychology the humanities and social sciences **The American Humanities Index** Stephen H.
