Me And Chairman Mao English Edition:

Ten Years of Madness Jicai Feng, 1996 Collection of true stories of people who lived through the Cultural Revolution in China from 1966 to 1976 *Mao Zedong and China's Revolutions* NA NA, 2016-04-30 Whether one views Mao Zedong as a hero or a demon the Great Helmsman was undoubtedly a pivotal figure in the history of 20th century China The first part of this volume is an introductory essay that traces the history of 20th century China from Mao's early career up to the Chinese Communist Party's victory in 1949 through three decades of revolution to Mao's death in 1976 The second half offers a selection of Mao's writings including such seminal pieces as On the New Democracy and selections from the Little Red Book and writings about Mao and his legacy by both his contemporaries and modern scholars Also included are headnotes a chronology Questions for Consideration photographs a selected bibliography and index **Revival: The People's**

Liberation Army and China's Nation-Building (1973) Ying-Mao Kau, 2017-09-29 This revised edition brings the problem of Third World conflict into the post Cold War era It asks when and how should the developed countries intervene in internal wars outside of their traditional geopolitical interest and what can such intervention realistically accomplish **The Red**

Mirror Chihua Wen, 2018-02-12 These evocative stories bring to life the tragic personal impact of the Cultural Revolution on the families of China's intellectuals Now adults survivors recall their childhood during the tumultuous years between 1965 and 1976 when Mao's death finally drew a curtain on a bitterly failed social and political experiment A series of first person narratives eloquently describes the life long influence of this seminal period on China's children Those who were teenagers in the late 1960s joined the Red Guards and the revolutionary rebel groups following Mao's directives to make revolution often to their own undoing Those who were too young to participate directly were even more vulnerable Although they had little understanding of the political firestorm that engulfed their parents they were old enough to understand and feel the terror it brought Vividly capturing the emotional intensity of the time these stories explore what it was like to be caught up in revolutionary fervor to be sent to the countryside to be separated either ideologically or physically from one's parents often forever By undermining families and family structure the Cultural Revolution created a generation of Chinese who view politics the Communist Party and life itself with deep cynicism Presenting a spectrum of individual stories of people who saw the Cultural Revolution through the eyes of a child The Red Mirror offers rare insights for understanding the crippling legacy of the Cultural Revolution *Chinese Posters* Lincoln Cushing, Ann Tompkins, 2007-09-27 Introduction People poverty politics and posters Nature and transformation Production and mechanization Women hold up half the sky Serve the people Solidarity Politics in command After the cultural revolution

China's Economic Transition, 1978-2000 -- an Alternative Institutional Analysis Stanley Zhao-xiong Yang, 2002 *Language, Corpora, and Technology in Applied Linguistics* Muhammad Afzaal, Swaleha Bano Naqvi, Geng Qiang, 2023-11-27 As culture and society has become more digitalized especially when computer science and digital technologies have entered a new era in the twenty first century

translation studies began to utilize a wide range of tools to enhance its reading of texts and contexts without which translation both as a practice and as a theorization could barely persist. It has become more apparent that two extreme poles between macro and micro visions have formed the diversified terrains of translation studies. On the one hand, technologies like NLP, topic modeling, network analysis, and data visualization make distant reading become possible, thus allowing us to have a paradigmatic view of how human ideas, beliefs, values, knowledge, and even emotions have spread in some patterns across cultural, geographical, and language divides in world history. On the other hand, corpus methods such as the use of keywords, collocates, and concordance lines changed the way by which texts were closely read from linear to vertical. With microscope-like corpus tools, we could go deeper into the texture for perception of nuanced meaning. While considering a fact that translation is seldom mono-modal in conveying meaning, we have to reconceptualize context as a multimodal environment where audio-visual and other resources interact to convey and make meaning. With regard to the fast development of digital technology, translation studies take an active role in gaining an enhanced capability in promoting transformation. Complexity has been favored in terms of theoretical framework and methodology. New questions are asked, old ones revisited with novel tools, but more areas wait to be cultivated and more questions to be approached by combining quantitative and qualitative methods. We could ask if digital technologies would bring new innovation to study of translation history, a heavily walled land for traditional humanists who tend to repeat so what, to question the less significance of data-driven studies. The idea of high-quality machine translation has become so realistic in today's market that translation educators have to face the shock wave it brought to translation learners and practitioners and rethink the relation between human translators and algorithms. Machine translation-assisted communication could help remove boundaries for better communication, but at the same time it also creates conflicts and leads to confrontation. Thus understood, it is imperative to give a concerned attention to digital translation studies, that is to study translation by resorting to and drawing on the digital technologies. This Research Topic is intended to promote current directions and new developments in cross-disciplinary critical discourse research. We welcome papers which from a critical analytical perspective deal with contemporary social, scientific, political, economic, or professional discourses and genres. Papers addressing the highlighted topics are especially welcome. In giving weight to these topics, we wish to call to attention some of the most pressing problems currently facing the world.
