Design Research in Information Systems Alan Hevner, Samir Chatterjee, 2010-06-14 It is 5 years since the publication of the seminal paper on Design Science in Information Systems Research by Hevner March Park and Ram in MIS Quarterly and the initiation of the Information Technology and Systems department of the Communications of AIS These events in 2004 are markers in the move of design science to the forefront of information systems research A sufficient interval has elapsed since then to allow assessment of from where the field has come and where it should go Design science research and behavioral science research started as dual tracks when IS was a young field By the 1990s the influx of behavioral scientists started to dominate the number of design scientists and the field moved in that direction By the early 2000s design people were having difficulty publishing in mainline IS journals and in being tenured in many universities Yes an annual Workshop on Information Technology and Systems WITS was established in 1991 in conjunction with the International Conference on Information Systems ICIS and grew each year But that was the extent of design science recognition Fortunately a revival is underway By 2009 when this foreword was written the fourth DESRIST conference has been held and plans are afoot for the 2010 meeting Design scientists regained respect and recognition in many venues where they previously had little

Stupid Things I Won't Do When I Get Old Steven Petrow, 2021-06-29 For fans of David Sedaris and Nora Ephron, here is a humorous, irreverent, and poignant look at the gifts, stereotypes, and inevitable challenges of aging based on the wildly popular New York Times essay from award-winning journalist Steven Petrow. Soon after his 50th birthday, Steven Petrow began assembling a list of things I won't do when I get old, mostly a catalog of all the things he thought his then 70-something-year-old parents were doing wrong. That list, which included "You won't have to shout at me that I'm deaf" and "I won't blame the family dog for my incontinence," became the basis of this rousing collection of do's and don'ts, wills and won'ts that is equal parts hilarious, honest, and practical. The fact is, we don't want to age the way previous generations did. Old people hoard. They bore relatives and strangers with tales of their aches and pains. They insist on driving long after they've become a danger to others and themselves. They eat dinner at 4pm. They swear they don't need a cane or walker, and guess what happens next? They never ever apologize. But there is another way. In Stupid Things I Won't Do When I Get Old, Petrow candidly addresses the fears, frustrations, and stereotypes that accompany aging. He offers a blueprint for the new old age and an understanding that aging and illness are not the same. As he writes, "I meant the list to serve as a pointed reminder to me to make different choices when I eventually cross the threshold to old. Getting older is a privilege. This essential guide reveals how to do it with grace, wisdom, humor, and hope. And without hoarding."
