English Classroom Bethan Marshall,Simon Gibbons,Louise Hayward,Ernest Spencer,2018-11-01 Studies of comparative
classroom practice in the teaching of secondary English are limited especially when it comes to exploration of the day to day
practice of English teachers in the secondary classroom This book presents a case study analysis of secondary classroom
practice in three countries Canada England and Scotland Each country has had different degrees of state involvement within
the secondary English curriculum over the last twenty years England has had the highest degree of state involvement in that
it has had several statutory national curricula and a variety of assessment regimes Scotland has had a non statutory
curriculum and no national tests and Canada has had no national curriculum at all with education being determined at
province level and each province varying its policies The research adopts a case study approach involving both classroom
observation and interviews with teachers Through this the authors explore the impact of state involvement on the reality of
what happens in secondary English classrooms The book invites readers to consider the applicability of the findings to their
own contexts to examine their own practice in the light of this and to consider the nature of the relationships between policy
personal belief and practice in the teaching of English **Assessment In Secondary Schools** Val Brooks,2002-01-16 This
is a very important book Assessment is one of the most technically and professionally challenging of topics for new teachers
Val Brooks has brought her own impressive technical expertise to bear and sets out the key professional demands in a
thorough logical and clear way The book draws extensively on practical examples which exemplify and develop the argument
New teachers will find it an invaluable guide experienced teachers will find that it widens their understanding of assessment

Current Index to Journals in Education ,2000 *Masculinity and Education* Amanda Coffey,David James,2016-03-16 The uncertain complex and problematic relationships between masculinity and education have come to occupy a prominent position within the sociology of education in recent years This collection of articles brings together a range of different perspectives offering both empirical and theoretical contributions to our understanding of this subject The articles seek to broaden our sociological understanding by considering masculinities in relation to a variety of educational setting and contexts These include the role of football in the playground of a junior school the question of why more boys study AS level mathematics in England the changing rhetoric of education ministers and attempts to increase the number of male primary school teachers in Australia The collection also engages with the broader context of gender politics and educational theory and the volume concludes with a study of the move away from class analysis within educational theories in recent decades taking English white working class masculinity as its main focus The collection offers a perceptive insight into a crucial and current area within the sociology of education This book was originally published as a special issue of the British Journal of Sociology of Education

Errors and Misconceptions in Maths at Key Stage 2 Mike Spooner,2012-07-26 The activities in this book are designed both to help children to learn and to understand math concepts and also to prepare them for taking SATS papers at KS2 There is plenty of research evidence to suggest that children are helped in their understanding of math problems if teachers focus on common misconceptions and if children are given opportunities for discussion and explanation of their own understanding Children can also feel stigmatized by being made to focus on their own errors Mike Spooner has developed activities that present already completed work which children then

assess correct and discuss in this way they can analyze mistakes without damage to their own self esteem The activities are presented in the same format as the SATS papers to give children practice in coping with that format The book also contains writing frames that children can use to structure their discussions of math problems **Real Exam Papers Set for 1997**
