

Series SC-9100
*Easy DDC Controller***Introduction**

SC-9100 is a pre-engineered, compact device for the control of heating, ventilation or air conditioning installations. The SC-9100 is a universal controller with many standard applications, which can be chosen from the controller's memory during installation. Parameters can be adapted to fit the exact requirements. Other application programs may be created on quantity order.

The display shows in clear text the inputs, outputs and main control information. The controller is protected to avoid unauthorized use (password). The SC 9100 is a full stand-alone controller, and may be connected to a communication bus as part of a JOHNSON CONTROLS Supervisory System.

The room command module SC-9180 may be connected to the SC-9100 to provide remote set point and real time clock.
