The SAGE Handbook of Digital Journalism Tamara Witschge, C. W. Anderson, David Domingo, Alfred Hermida, 2016-05-18  
The production and consumption of news in the digital era is blurring the boundaries between professionals citizens and activists Actors producing information are multiplying but still media companies hold central position Journalism research faces important challenges to capture examine and understand the current news environment The SAGE Handbook of Digital Journalism starts from the pressing need for a thorough and bold debate to redefine the assumptions of research in the changing field of journalism The 38 chapters written by a team of global experts are organised into four key areas Section A Changing Contexts Section B News Practices in the Digital Era Section C Conceptualizations of Journalism Section D Research Strategies By addressing both institutional and non institutional news production and providing ample attention to the question who is a journalist and the changing practices of news audiences in the digital era this Handbook shapes the field and defines the roadmap for the research challenges that scholars will face in the coming decades

**Newsmaking Cultures in Africa** Hayes Mawindi Mabweazara, 2018-06-05 This book contributes to a broadened theorisation of journalism by exploring the intricacies of African journalism and its connections with the material realities that underpin the profession on the continent It pulls together theoretically driven studies that collectively deploy a wide range of evidence to shed some light on newsmaking cultures in Africa the everyday routines defining epistemologies as well as ethical dilemmas The volume digs beneath the standardised and universalised veneer of professionalism to unpack routine practices and normative trends shaped by local factors including the structural conditions of deprivation entrenched political instability and interference pervasive neo patrimonial governance systems and the influences of technological developments These varied and complex circumstances are shown to profoundly shape the foundations of journalism in Africa resulting in routine practices that are both normatively distinct and equally in tune with imported Western journalistic cultures The book thus broadly points to the dialectical nature of news production and the inconsistent and contradictory relationships that characterise news production cultures in Africa

**Journalism and the Coronavirus Pandemic** Thorsten Quandt, Karin Wahl-Jorgensen, 2025-02-13 This book explores how the Covid 19 pandemic triggered profound changes in the practice and consumption of digital journalism Featuring original research from around the globe the volume examines key challenges of covering the pandemic from Zimbabwe to China and the UK The research shows that the pandemic amplified threats to press freedom At the same time it took an emotional toll on journalists who worried about their exposure to Covid 19 and dealt with challenges associated with a growing reliance on digital tools as well as difficulties accessing sources and hostile reactions from audiences Charting the consequences of an increasingly complex media ecosystem the volume addresses the rise of distrust in mainstream media the influence of alternative news outlets and the surge of misinformation and conspiracy theories The volume also examines the polarized reactions of audiences and the complex relationship between public trust government actions and journalistic

organisations Despite the challenges there are signs of increased audience engagement with news pointing to a potential positive shift in journalism's societal role This volume is essential reading for scholars and students in media and journalism studies seeking a comprehensive understanding of how the pandemic reshaped digital journalism The chapters in this book were originally published as a special issue of Digital Journalism **Journalism** Tim P. Vos, 2018-05-22 This volume sets out the state of the art in the discipline of journalism at a time in which the practice and profession of journalism is in serious flux While journalism is still anchored to its history change is infecting the field The profession and the scholars who study it are reconceptualizing what journalism is in a time when journalists no longer monopolize the means for spreading the news Here journalism is explored as a social practice as an institution and as memory The roles epistemologies and ethics of the field are evolving With this in mind the volume revisits classic theories of journalism such as gatekeeping and agenda setting but also opens up new avenues of theorizing by broadening the scope of inquiry into an expanded journalism ecology which now includes citizen journalism documentaries and lifestyle journalism and by tapping the insights of other disciplines such as geography economics and psychology The volume is a go to map of the field for students and scholars highlighting emerging issues enduring themes revitalized theories and fresh conceptualizations of journalism Handbook of Digital Politics Stephen Coleman, Lone Sorensen, 2023-11-03 This thoroughly revised second edition Handbook examines the latest knowledge and perspectives on digital politics Leading scholars explore the expansion of digital technologies channels and styles as it shapes political dynamics *Understanding Citizen Journalism as Civic Participation* Seungahn Nah, Deborah S. Chung, 2020-02-17 Understanding Citizen Journalism as Civic Participation re conceptualizes citizen journalism in the context of Habermas's theory of the public sphere and communicative action to examine how citizen journalism practice as civic participation may contribute to a healthier community and democracy in the civil society context Citizen journalism has garnered growing attention owing to the participation of ordinary citizens in the performance of news production Drawing on the authors decade long collaboration on citizen journalism scholarship this book posits a theoretical framework that relies on diverse communication perspectives to understand citizen journalism practice and its democratic consequences This book will be of great relevance to scholars researchers professionals and policy makers working in the field of journalism and media studies culture studies and communication studies *Travel, Writing and the Media* Barbara Korte, Anna Karina Sennefelder, 2022-03-03 The nexus between travel writing and media in the contemporary world is dense travel practice is increasingly interwoven with media representations in old and new media are co present and converge Digitisation has had a profound impact on the practice and mediation of travel but this volume aims to show that travel and its representation have always been enlaced with media With contributions by experts in literary and cultural studies journalism studies and informatics the book takes a multi and interdisciplinary approach and covers a wide range of media from the hand crafted album to social media It illustrates how current transformations invite us to revisit earlier periods of travel writing and their

media environments and to explore the ways in which contemporary forms of mediation are prefigured by earlier practices and forms The book addresses readers interested in travel writing travel studies and cultural studies Chapters Introduction 3 7 and 9 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license Funded by University of Freiburg
