June 2014 Business Studies Grade 12 Exam

Sinan Ülgen, George Perkovich

June 2014 Business Studies Grade 12 Exam:

Assessing Academic Literacy in a Multilingual Society Albert Weideman, John Read, Theo du Plessis, 2020-11-02 South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy. The dominant medium of instruction in the universities is English and to a much lesser extent Afrikaans but only a minority of the national population are native speakers of these languages. Nine other languages can be media of instruction in schools which makes the transition to tertiary education difficult enough in itself for students from these schools. The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully. The volume also aims to bring the innovative solutions designed by South African educators to a wider international audience.

Common Sense Questions about Tests Gerard Giordano, 2016-03-07 Parents had questions about the tests their children took at school. They considered them to be common sense questions. They posed them to the businesspeople, publishers and politicians who championed tests. They also posed them to the school administrators, teachers and union leaders who criticized them. This book examines the questions the parents posed, the answers they elicited and the changes they prodded.

Written Corrective Feedback: The Role of Learner Engagement Alia Moser, 2020-12-21 The book provides new insights into written corrective feedback by describing students' expectations as well as mediating factors that influence their engagement with it. The book draws on an extensive dataset to illustrate secondary school students' behavioural, cognitive and emotional engagement with written corrective feedback and the extent to which mediating factors such as teachers' peers' feedback options, attitudes and emotions foster or hinder it. It shows why teachers need to provide students with the purpose of the corrective feedback they provide, explain how such feedback works and introduce strategies that can be employed to engage with it. Based on the finding that a combination of several feedback types is essential to ensure learner engagement, the book also provides an extensive description and multiple authentic examples of the Engagement Feedback Mediator Model that was developed in the context of this study.

Stigma and the Shaping of the Pornography Industry Georgina Voss, 2015-05-15 The idea of pornography is often employed to invoke titillation, anger and disgust. *Stigma and the Shaping of the Pornography Industry* explores the effects that this stigmatized identity has on the pornography industry itself. From the video era to the emergence of the internet to trade shows, white collar workers, technological innovation and industry wide characteristics, this book looks beyond content production to explore how stigma has shaped the structures, practices, norms and boundaries of the wider sector. By drawing on concepts such as dirty work, core stigmatized industries and outlaw innovation, this book offers rich insights into the ways in which stigma is socially constructed and managed and the deep structural effects that it has on the industry.
