Geographers Elizabeth Baigent, André Reyes Novaes, 2018-11-15

Geographers Biobibliographical Studies Volume 37 explores the concept of distinction in geography Through the lives of six geographers working in Brazil North America Europe and R union it investigates what distinction consists of how we identify and celebrate it and how it relates to quotidian practices in the discipline The volume highlights the continuing importance of biography and the International Geographical Union in recording and assessing distinction It also considers the relevance of personal networks for the circulation and translation of distinguished geographical knowledge and how this knowledge can underpin applied projects and critical appraisal of geographical scholarship both at a national and sub national level Gendered notions of distinction are also addressed particularly through June Sheppard who found limited recognition for her work as a result of gendered expectations within the discipline and society at large By reflecting on how we locate distinguished geographers and tell

their histories Geographers Biobibliographical Studies Volume 37 makes an important contribution to fostering less canonical work in historical geography 5 Steps to a 5 AP Environmental Science, 2014-2015 Edition Linda D.

Willetts, 2017-11-17 Universities have a crucial role in the modern world In England entrance to universities is by nation wide
competition which means English universities have an exceptional influence on schools a striking theme of the book This
important book first investigates the university as an institution and then tracks the individual on their journey to and
through university In *A University Education* David Willetts presents a compelling case for the ongoing importance of the
university both as one of the great institutions of modern society and as a transformational experience for the individual The
book also makes illuminating comparisons with higher education in other countries especially the US and Germany Drawing
on his experience as UK Minister for Universities and Science from 2010 to 2014 the author offers a powerful account of the
value of higher education and the case for more expansion He covers controversial issues in which he was involved from
access for disadvantaged students to the introduction of 9 000 fees The final section addresses some of the big questions for
the future such as the the relationship between universities and business especially in promoting innovation He argues that
the two great contemporary trends of globalisation and technological innovation will both change the university significantly
This is an authoritative account of English universities setting them for the first time in their new legal and regulatory
