

3 Phase AC drive system

Outstanding ergonomics with multi-functional tiller head

Operation with tiller in upright position using the crawl speed button

Compact and manoeuvrable

Integrated charger with 13 Amp plug socket for easy charging

Sensitive lowering function places loads gently (optional)

EMC 110/EMC B10

Electric pedestrian stacker (1000 kg)

The Jungheinrich electric pedestrian stacker EMC 110/EMC B10 combines productivity, user-friendly controls, and safety for the operator. It offers a wide array of options for almost any application. Two of the best examples are placing goods in racking and feeding machines. Palletised goods are simply raised to the required picking height. Then they can be deposited into the racking or removed from the pallet without placing stress on the operator's back.

Ergonomic and engineering advantages make the EMC especially easy to operate. The long tiller provides the operator with low operating forces and a high safety factor at the same time. The sensitive lower-

ing function (optional) ensures gentle depositing of especially delicate materials on the racking or floor.

All drive and lift functions are easily accessible from the multi-functional tiller head without having to reach around. The creep speed button allows the truck to operate even in very confined spaces with the tiller upright.

The EMC also offers impressive features for easy power management. The no-maintenance 70 Ah batteries can be recharged simply by connecting the integrated charger into any 13 Amp plug socket. The battery discharge indicator

continually displays the batteries state of charge.

The innovative 3 phase AC drive motor gives outstanding performance in this truck class and creates ideal conditions for efficient, productive work.

The EMC B10 is also capable of lifting perimeter based pallets and can also be fitted with an FEM/ISO fork carriage. A wide selection of attachments can be mounted on the fork carriage, further expanding the already broad range of applications.
