Dear [Recipient's Name],

I hope this letter finds you well. I write to you today to share my thoughts on an issue that is pertinent to the sustainability of our organization, namely, Employee Retention.

I sincerely believe we need to reassess and improve our employee retention strategies. With the current high turnover rate, we risk losing more talented and capable employees, which may negatively impact the efficiency and productivity of our entire team. Moreover, the cost of hiring and training replacements can prove to be a significant financial burden on our budget.

Initiatives such as positive work environment, competitive compensation packages, professional growth opportunities, and recognition for achievements can go a long way in improving employee satisfaction and loyalty. I believe these moves can help to foster a culture that encourages employees to stay with the organization for a longer term.

If possible, I would appreciate the opportunity to meet with you to discuss the matter further. I trust that with an improved employee retention strategy in place, our organization can continue to prosper and excel.

Thank you for considering my viewpoint on this important matter. I look forward to your positive response.

Junior High Retention Letter Example:

Problem Behavior Theory and Adolescent Health Richard Jessor, 2017-03-31 This second volume of Richard Jessor's influential works applies his groundbreaking theory to illuminating the psychosocial determinants of adolescent health. Focusing on a range of both health compromising and health enhancing behaviors including problem drinking, marijuana use, risky driving, and early sexual experience, as well as regular exercise and healthy diet, these writings advance understanding of the role of health behavior in adolescence and adolescent development. Chapters illustrate the relevance of the theory and of its interdisciplinary approach for research on behavioral health in adolescence and for the design of prevention intervention programs to promote healthy development. In addition, the book's comparative studies of U.S. and Chinese youth reveal the generality of the theory across societal and national differences. Topics featured in this book include Alcohol use and problem drinking in adolescent health and development, Psychosocial research on marijuana use, Understanding early initiation of sexual intercourse in adolescence, Smoking behavior in adolescence and young adulthood, Developmental change in risky driving, Healthy eating and regular exercise in adolescent health and development. *Problem Behavior Theory and Adolescent Health* is a must-have resource for researchers, professors, clinicians, and related professionals, as well as graduate students in developmental and health psychology, sociology, criminology, criminal justice, public health, and related disciplines.

Teaching in the Middle and Secondary Schools Richard Dean Kellough, Joanna Carjuzaa, 2009 This practical performance-based methods text for middle and secondary school pre-service teachers is organized around four developmental components. Why gives the rationale to support the components that follow. What what you will be teaching. How how you will teach it. How well how well you are teaching it. Organized into four parts that are then split up into ten modules, the text begins with a history of education going back to colonial times. The modules then cover the many and varied aspects of teaching pre and early adolescents such as teaching students with exceptionalities, classroom management, diversity, instructional planning.

using technology in the classroom assessing student achievement and self assessment and continued professional development The authors contend that the best teacher is one who has an eclectic style and can monitor their own progress and make changes and adapt their strategies if they are not succeeding The ninth edition has been carefully updated to reflect the diversity and current topics in the field today The book is a valuable resource for students today and as a reference for many years to come New To This Edition NEW Improved balance of content between middle and secondary schools this emphasizes that middle school is uniquely different from both high school and the traditional junior high school and that pre and early adolescence is different from late adolescence NEW Technology has been integrated throughout every module of the book New features including Teaching Scenarios Activities and Technology Rich features were added to all modules NEW Contributions from pre service and in service middle and secondary school teachers teacher educators and educational researchers have been added to strengthen the tie between theory and practice *Building Community Support for Health Promotion Programs* Evelan R.
