Danielian, 2021-09-09 *The Reel Classroom: An Introduction to Film Studies and Filmmaking* presents an educator-facilitated curriculum that focuses on a variety of aspects concerning the appreciation of film and the filmmaking process. Chapters begin with short and effective introductions to the specified concept, with accompanying class discussion ideas and background information for the teacher. Each chapter will conclude with reproducible handouts and assignment sheets, along with two to three sample activities. Opportunities for assessment. Suggestions for films to be used for each discipline will also be given. Grades 6-9. **The American Blockbuster** Benjamin Crace, 2022-10-18 Providing an

indispensable resource for students and general readers, this book serves as an entry point for a conversation on America's favorite pastime, focusing in on generational differences and the evolution of American identity. In an age marked by tension and division, Americans of all ages and backgrounds have turned to film to escape the pressures of everyday life. Yet beyond escapism, popular cinema is both a mirror and a microscope for our collective psyche. Examining the films that have made billions of dollars, through a new lens, reveals that popular culture is a vital source for understanding what it means to be an American. This book is divided into four sections, each associated with a different generation. Featuring such era-defining hits as *Jaws*, *Back to the Future*, *Avatar*, and *The Avengers*, each section presents detailed film analyses that showcase the consistency of certain American values throughout generations, as well as the constant renegotiation of others. Ideal for any cinephile, *The American Blockbuster* demonstrates how complex and meaningful even the summer blockbuster can be.
