tender and unforgettable strains of Morrison's work from the release in 1968 of *Astral Weeks* to the publication in 2014 of *Lit Up Inside: Selected Lyrics*. A powerful tribute to mark Van Morrison's accomplishments, *In Another World* taps into his legacy's eclectic soul and is kin to its enchantments. [Someone to Love, Someone Like You](#) Terry A. Veling, 2020-01-21 This volume of poetry and prose expresses the vital connection between poetry and the human spirit. The poems reflect themes of desire, time, memory, resistance, natural love, and divinity. They are guided by only one hope that somewhere and somehow they may touch a chord with another person, another soul.

Ireland in the Life and Work of C.S. Lewis David Clare, 2025-08-14 Even after he achieved world-wide fame through books such as *The Lion, The Witch and The Wardrobe* and *The Screwtape Letters*, the Belfast-born author C.S. Lewis often regarded as uncomplicatedly English by critics and the general public proudly and regularly described himself as Irish. What's more, he frequently incorporated Irish elements into his work. This includes, for example, numerous allusions to Irish mythology, the repeated employment of Hiberno-English and Ulster Scots words and expressions, and a preference for tropes frequently found in Irish and sometimes specifically Ulster Protestant writing.

The Places of Van Morrison's Songwriting Geoff Munns, 2022-12-21 What can we learn about Van Morrison's life and work as a songwriter through his songs? This book looks closely at the lyrics and music from a selection of his songs. Some are very well known: *Brown Eyed Girl*, *Cleaning Windows*, and *The Healing Game*. Others are less familiar. Through these songs, the book offers insights into some of the most important ideas that the songwriter has explored across his five-decade-plus career, starting from the Them period and extending through his solo albums. These readings show how thinking about Morrison's use of place provides a specific lens that contributes to a greater understanding of his art. The songs are organized into chapters that reflect many of the important places in Morrison's work as he ventured professionally and imaginatively away from the places of his upbringing towards a wider musical world. These places are in city streetscapes and country landscapes, in home places, on streets and in ditches, in the enclosed spaces of rooms, in the expansive reaches of the natural world, in indeterminate and specific foreign lands. A picture emerges of the journey that Van Morrison details through his songs, one that sees him first wandering as a boy through his East Belfast haunts and then venturing out to a wider world away from this local place.

Navigating the Transnational in Modern American Literature and Culture Tara Stubbs, Doug Haynes, 2017-03-16 This study develops the important work carried out on American literature through the frameworks of transnational, transatlantic, and translocal studies to ask what happens when these same aspects become intrinsic to the critical narrative. Much cultural criticism since the 1990s has sought to displace perceptions of American exceptionalism with broader notions of Atlanticism, transnationalism, world system, and translocalism, as each has redefined the US and the world more generally. This collection shows how the remapping of America in terms of global networks and as a set of particular localities or even glocalities now plays out in Americanist scholarship, reflecting on the critical consequences of the spatial turn in American literary and cultural studies. Spanning twentieth and twenty-first century American poetry, fiction, memoir,

visual art publishing and television and locating the US in Caribbean African Asian European and other contexts this volume argues for a re modelling of American ness with the transnational as part of its innate rhetoric It includes discussions of travel migration disease media globalization and countless other examples of inflowing Essays focus on subjects tracing the contemporary contours of the transnational such as the role of the US in the rise of the global novel the impact of Caribbean history on American thought and vice versa transatlantic cultural and philosophical genealogies and correspondences and the exchanges between the poetics of American space and those of other world spaces Asking questions about the way the American eye has traversed and consumed the objects and cultures of the world but how that world is resistant this volume will make an important contribution to American and Transatlantic literary studies

Olivier Messiaen and the Music of Time Paul Griffiths, 2012-04-05 Olivier Messiaen was one of the outstanding creative artists of his time The strength of his appeal to listeners as well as to composers is a measure of the individuality of his music which draws on a vast range of sources rhythms of twentieth century Europe and thirteenth century India ripe romantic harmony and brittle birdsong the sounds of Indonesian percussion and modern electronic instruments What binds all these together is on one level his unswerving devotion to praising God in his art and on another his independent view of how music is made Messiaen s music offers a range of ways of experiencing time time suspended in music of unparalleled changelessness time racing in music of wild exuberance time repeating itself in vast cycles of reiteration In *Olivier Messiaen and the Music of Time* leading writer and musicologist Paul Griffiths explores the problems of religious art and includes searching analyses and discussions of all the major works suggesting how they function as works of art and not only as theological symbols This comprehensive and stimulating book covers the whole of Messiaen s output up to and including his opera *Saint Fran oise d Assise*
