SHEPPARD,2016-12 The Jungle Survival Pocket Manual brings together the official manuals and information that enabled the Allies to fight in Burma Malaya Thailand Indochina Singapore and the Pacific Islands and win the war During the Second World War British and American soldiers were sent to new and challenging theatres fighting to survive not only encounters with the enemy but the landscape they found themselves in Being posted to South East Asia and the Pacific to fight the Japanese meant soldiers had to learn to survive in the tropics fighting and living in endless steamy jungle and perilous swamps In this environment men had to be able to take care of themselves rather than relying on their unit to supply their needs something which did not come naturally to the many soldiers born and raised in cities To help them in this completely alien environment the British and US armies produced a number of official training manuals and guides to explain to the men how to identify and fight the Japanese and avoid their deadly panji traps but also jungle lore how to find and cook plants that were safe to eat which animals and insects could kill them how to identify and treat tropical illnesses and diseases and avoid the dangers of polluted water and cannibals The Jungle Survival Pocket Manual brings together the official manuals and information that enabled the Allies to fight in Burma Malaya Thailand Indochina Singapore and the Pacific Islands and win the war Clothbound and presented in the Pool of London Press retro styling this volume will appeal to those interested in the South East Asian and Pacific theatres of WWII as well as those researching their family history It makes a unique gift for all those interested in survival techniques and those of travelling to Asia 20 diagrams and drawings reproduced from the original guides **SAS Jungle Survival** Barry Davies,2013-01-08 When we think of jungles we often think of a densely forested area with thick foliage this is what is known as a primary jungle But jungles can also include swamps grasslands and cultivated areas Primary jungles can fall into the category of either a tropical rain forest or a deciduous forest depending on the types of trees and plants found growing there A tropical rain forest is typified by having tall trees whose upper branches interlock to form canopies Yet of all the environments in which man has to survive the jungle offers the best chance The SAS have operated in the jungle for years sometimes staying in the forest for months at a time They developed a technique whereby they had two sets of clothing one for daytime use and one for night Just before they went to sleep they would change from their wet clothing which was normally hung under the shelter to dry out In the morning they would change from their dry clothing and put on the wet It is an uncomfortable change but one that guaranteed a good night s sleep in dry clothing The SAS Guide to Jungle Survival will teach the reader to come to terms with the jungle environment understand it and work with it as opposed to fighting it The jungle forest can provide shelter food and water in abundance and this book will show you how If the jungle offers any

problems it is with disease and wild animals The SAS Guide to Jungle Survival will show you how to avoid and resist both and come out alive The Ultimate Bushcraft Survival Manual Tim MacWelch, The Editors of Outdoor Life, 2017-10-10 What if you were dropped in the woods with little more than a knife your wits and the hopefully warm shirt on your back Could you survive If you'd read this book the answer is yes Survival It's one of our most primal fears most basic needs What do you do when everything is stripped away except your will to prevail In this book survival expert Tim MacWelch examines how native peoples around the world and throughout history have made their own shelter weapons tools and more and well as clever MacGuyver esque ideas for using anything you might find in your pockets or pack Whether your goal is to test yourself against nature be prepared for any catastrophe or learn more about traditional ways of survival this is the one book you need Packaged in a durable wipe clean flexicover with metallic corner guards this practical manual withstands heavy duty use indoors and out CHAPTER ONE Bare Necessities The stuff you need to survive short term wilderness emergencies 72 hours to one week The Survival Priorities Clothing selection Shelters Pick a safe shelter location How to build Leaf huts lean to jungle platforms thatched roof log huts wicki ups pit houses and more different homes for varied climates Water Gathering and Disinfection Finding springs boiling w hot rocks rain and precipitation collection water storage primitive filters water from plants Fire Tinder Kindling Fire Lays Flint How and when to fight your way out CHAPTER TWO Finer Things Skills and techniques to collect food and live more comfortably in the wild weeks to months Foraging for Wild Edible Plants How to identify and use wild plant foods Recipes like our ancestors would have eaten Trapping Ways to catch game with new and old school low tech traps Primitive Fishing How to catch fish with thorns and other improvised tackle Ancient Weapons Bow and arrow spear Spear thrower Bola and sling primitive forging of metal Hunting Skills and game processing 10 things to never do on a hunt Primitive Tools How to make stone blades knives axes stone drill bits mallets and wedges for wood splitting digging sticks Hygiene Keeping clean Natural toilet paper Soap from plants DIY latrine CHAPTER THREE Long Term Living The skills of our ancestors and the things you'd need for long term primitive living years Food Storage Drying smoking Food Caches Freezing Containers How to make several different basket styles Bark containers Wooden bowls Soapstone bowls and pots Primitive ceramics Hides and Furs DIY buckskin fur rawhide and leather Making clothes and outerwear moccasins mittens hats etc Primitive Cooking Cook in the coals Spits and skewers Green stick grill Rock for frying pan Stone Ovens Steam pit Earth over in ground hearth system Tracking Man tracking and animal tracking Natural Navigation How to find your way by using the stars the landscape the weather and many other methods Wild Medicine Teas compresses and poultices to help you heal *The Hunting & Gathering Survival Manual* Tim MacWelch, 2014-11-04 A manual for the modern hunter gatherer Outdoor Life's Hunting Gathering Survival Manual will teach you everything you need to know about foraging hunting and cooking in the wild From finding wild edible plants to subsistence hunting you'll learn how to live off the land while hunting like a caveman and eating like a king With high quality design intricate detail and a durable flexicover
