Junkers Ju 52 A History 1930 1945:

Junkers Ju 52 Robert Forsyth, Eddie J. Creek, 2014 As with the other recent books in this series this Classic study of the Ju 52 will offer the most comprehensive account published in recent years of this bulwark of the Luftwaffe which first saw military service in the 1930s and was then engaged in operations from the Spanish Civil War through to the end of World War 2 The all metal three engined Ju 52 3m enjoyed a solid reputation amongst its crews and the troops and paratroops who used it and depended on it It is a machine synonymous with the images of the German attacks on Holland and France in 1940 and Crete in 1941 when hundreds of Tante Jus were used to drop paratroopers to successfully capture key tactical and strategic areas The full history however goes back much further Built as a passenger aircraft for Deutsche Lufthansa the Ju 52 ranged as far as South Africa Mozambique India and Latin America as well being operated by several other European countries such as Belgium Sweden and Finland as well as airlines in Brazil Equador Peru and Uruguay Britain operated several Ju 52s The aircraft was first blooded in the Spanish Civil War where it was pressed into service as a crude but effective bomber with the Legion Condor From then on the Luftwaffe deployed it on every battle front in the West in the Mediterranean and in the East An example also flew in Iraq The Ju 52 served as a stalwart transport often operating in the most hostile conditions with ice or dust lifting men animals food supplies ammunition mail and spare parts vital for German military operations such as on the North African supply routes at Demyansk Stalingrad and also in the Ardennes in 1944 It was also converted into the ambulance and mine hunting roles and was adapted as a seaplane After the war the Ju 52 flew on as late as the 1980s testimony to its strength and reliability Ju 52/3m Bomber and Transport Units 1936-41 Robert Forsyth, 2017-05-25 The all metal Junkers Ju 52 3m enjoyed a solid indeed revered reputation amongst its crews and the troops and paratroopers who used and depended on it For more than ten years it saw service as a successful military transport with its distinctive three engined design and corrugated metal construction becoming instantly recognisable It was a mainstay in the Luftwaffe s inventory first seeing service in the 1930s in bombing and transport operations in the Spanish Civil War and subsequently during the German invasion of Poland It then served on every front on which the Luftwaffe was deployed until May 1945 The Junkers served as a stalwart transport confronting both freezing temperatures and ice and heat and dust lifting men animals food and supplies vital for German military operations This the first of two books on the Ju 52 3m details its service as a bomber in Spain and in South America followed by its pivotal role in early war operations during the invasions of Poland and France the airborne invasion of Crete and the early stages of Operation Barbarossa **Shadow over the Atlantic** Robert Forsyth, 2017-07-27 German U boats were the scourge of Allied merchant and military shipping in the Atlantic during World War II threatening to isolate and then starve the UK out of the War As Germany s war against the Allied convoys intensified in late 1943 German Admiral Karl D nitz called upon the Luftwaffe to provide a long range spotting and shadowing unit to act as eyes for his U boats Equipped with big four engined Junkers Ju 290s fitted out with advanced

search radar and other maritime ELINT electronic intelligence devices Fernaufklärungsgruppe FAGr 5 Atlantik undertook a distant isolated campaign far out into the Atlantic and thousands of miles away from its home base in western France The information generated and reported back to Dönitz's headquarters was vital to the efforts of the U boats and FAGr 5's shadowing missions were assigned priority in terms of skilled crews supplies and equipment This book tells for the first time the fascinating story of the formation and operations of FAGr 5 Atlantik drawing on never before published historical records of the unit that accounted for the reporting and destruction of thousands of tons of Allied shipping *Hitler's Air Bridges* Dmitry Degtev, Dmitry Zubov, 2022-12-29 Much has been written about the famous fighters and bombers of the Luftwaffe which proved so successful in the invasion of Poland the Battle of France the Battle of Britain and in the early operations in Eastern Europe Little attention however has been focused on the Luftwaffe's transport aircraft which played a vital role in supplying German forces in every theatre In early May 1940 the battle of Norway was nearing its climax but General Eduard Dietl's 3rd Jäger division was blocked by the Allies in the Narvik area Only the Luftwaffe could provide effective assistance to the encircled troops The special purpose groups KGr zbV107 and KGr zbV108 were ordered to supply the division by air Transports delivered ammunition food and even boots for German sailors who found themselves on land This was the first of a number of occasions in which the Luftwaffe's transport Gruppen often equipped with the slow but reliable Junkers 52 created an air bridge to supply troops cut off or surrounded by the enemy The transport Gruppen had previously been involved in supporting the advance of German forces during the Polish campaign this being followed by the capture of Denmark The Netherlands Belgium and Greece During Operation Barbarossa German troops were dispersed over the vast expanses of Russia It was a country without roads where the normal supply by trucks and trains to the troops was difficult and sometimes impossible Often it was only the Luftwaffe's transport aircraft that kept the Germans fighting But with Hitler's insistence that there should be no retreat despite the overwhelming strength of the Soviet forces his German armies found themselves surrounded and the Luftwaffe had to create air bridges to supply the beleaguered troops Nowhere was this more evident than the Battle of Stalingrad Göring having convinced Hitler that the Luftwaffe was capable of keeping the Sixth Army supplied As the war increasingly turned against the Third Reich air bridges were vital in supporting and maintaining its garrisons in places such as Demyansk Holm Korsun Budapest Breslau and many others Hitler's Air Bridges presents the story of the Luftwaffe's transport Gruppen more extensively and in greater detail than ever before *To Save An Army* Robert Forsyth, 2022-11-10 Using the diaries of Luftwaffe commanders rare contemporary photographs and other previously unpublished sources Robert Forsyth analyzes the human strategic tactical and technical elements of one of the most dramatic operations arranged by the Luftwaffe Stalingrad ranks as one of the most infamous savage and emotive battles of the 20th century It has consumed military historians since the 1950s and has inspired many books and much debate This book tells the story of the operation mounted by the Luftwaffe to supply by airlift the trapped and exhausted German Sixth

Army at Stalingrad in the winter of 1942-43. The weather conditions faced by the flying crews, mechanics and soldiers on the ground were appalling, but against all odds and a resurgent and active Soviet air force, the transports maintained a determined presence over the ravaged city on the Volga, even when the last airfields in the Stalingrad pocket had been lost. Yet even the daily figure of 300 tons of supplies needed by Sixth Army just to subsist proved over ambitious for the Luftwaffe, which battled against a lack of transport capacity, worsening serviceability and increasing losses in badly needed aircraft. Using previously unpublished diaries, original Luftwaffe reports and specially commissioned artwork, this gripping battle is told in detail through the eyes of the Luftwaffe commanders and pilots who fought to keep the Sixth Army alive and supplied.
