Lithography 1800 185:

Lithography, 1800-1850 Michael Twyman, 1970 *The Wreck of the Medusa* Jonathan Miles, 2008-11 This spellbinding account of the most famous shipwreck before the Titanic draws on published accounts and journals of survivors Historian Miles brilliantly reconstructs the ill fated voyage and the events that inspired Theodore Gericault's painting *The Raft of the Medusa* **Arts & Humanities Citation Index**, 2000 **The New Science of Geology** Martin J.S. Rudwick, 2023-04-14 The science of geology was constructed in the decades around 1800 from earlier practices that had been significantly different in their cognitive goals In the studies collected here Martin Rudwick traces how it came to be recognised as a new kind of natural science because it was constituted around the idea that the natural world had its own history The earth had to be understood not only in relation to unchanging natural laws that could be observed in action in the present but also in terms of a pre human past that could be reliably known even if not directly observable and its traces only fragmentarily preserved In contrast to this radically novel sense of nature's own contingent history the earth's unimaginably vast timescale was already taken for granted by many naturalists though not yet by the wider public and the concurrent development of biblical scholarship precluded any significant sense of conflict with religious tradition A companion volume Lyell and Darwin *Geologists Studies in the Earth Sciences in the Age of Reform* was published in 2005 **Object Lives and Global Histories in Northern North America** Beverly Lemire, Laura Peers, Anne Whitelaw, 2022-03-30 *Object Lives and Global Histories in Northern North America* explores how close collaborative looking can discern the traces of contact exchange and movement of objects and give them a life and political power in complex cross cultural histories Red River coats prints of colonial places and peoples Indigenous made dolls and an Englishwoman's collection provide case studies of art and material culture that correct and give nuance to global and imperial histories The result of a collaborative research process involving Indigenous and non Indigenous contributors this book looks closely at the circumstances of making use and circulation of these objects things that supported and defined both Indigenous resistance and colonial and imperial purposes Contributors re envision the histories of northern North America by focusing on the lives of things flowing to and from this vast region between the eighteenth and the twentieth centuries showing how material culture is a critical link that tied this diverse landscape to the wider world An original perspective on the history of northern North American peoples grounded in things *Object Lives and Global Histories in Northern North America* provides a key analytical and methodological lens that exposes the complexity of cultural encounters and connections between local and global communities *ABHB Annual Bibliography of the History of the Printed Book and Libraries* Hendrik D.L. Vervliet, 2013-11-11 The history of printing books and libraries is confined only to a limited extent within the boundaries of individual countries There are indeed few historical developments which have played a more universal role in reaction against all kinds of particularism than type design printing book production publishing illustration binding librarianship journalism and related subjects Their history should be

assessed and studied primarily in an international not in a local context The bibliographical resources however which the historian of these subjects has at his disposal correspond hardly at all to the essentially international character of the object of his studies Since the appearance of the retrospective bibliography of BIG MORE and WYMAN covering the subject comprehensively up to 1880 the only current bibliography has been the Internationale Bibliographie des Buch und Bibliothekswesens Covering a representative part of newly published literature it appeared from 1898 but did not survive the Second World War More recently several useful but limited bibliographies have appeared
