Lives of Girls and Women Neil Kalman Besner,1990 **The Fiction of Alice Munro** Brad Hooper,2008-06-30 As a short story writer Alice Munro has achieved high critical and popular regard in both her native Canada and in the United States Indeed Munro has been adopted by the entire English speaking world as one of its own and her work has received many awards and honors In the U S she is roundly regarded as one of the best if not the best contemporary writers of the short story and one of the greatest living fiction writers Here Brad Hooper takes readers through her fiction work by work discussing the themes forms techniques and styles she employs to make her work come alive Munro has founded her own brand of the short story longer than traditionally practiced in the short story form and encompassing broader time frames Her stories are primarily character studies that explore the impact of physical and mental isolation in adolescence middle age and into elder years Hooper traces Munro s evolving definition of the short story form and surveys the fiction in an effort to elucidate the works for newcomers and enthusiasts alike **The Psychological Development of Girls and Women**

Sheila Greene,2014-11-27 Choice Recommended Read This thoroughly revised new edition updates Sheila Greene s original transformative account of the psychological development of girls and women and the central role of time in shaping human experience Greene critically reviews traditional and contemporary theoretical approaches ranging from orthodox psychoanalysis to relational and post modern theories and argues that even those that claim to focus on development have presented a view of women s lives as fixed and determined by their nature or their past These theories she believes should be rejected because of their inherent lack of validity and their frequently oppressive implications for women Essential but often neglected insights from the more compelling developmental and feminist theories are woven together within a theoretical framework that emphasizes temporality emergence and human agency The result is a liberating theory of women s psychological development as constantly emerging and changing in time rather than as static and fixed by their nature socio cultural context and personal history Updated for a new generation of readers The Psychological Development of Girls and Women will continue to be essential reading for students and researchers in the psychology of women developmental psychology and women s studies **Penguin Modern Classics Lives of Girls and Women** Alice Munro,2014-08-19 Lives

of Girls and Women is the intensely readable touching and very funny story of Del Jordan a young woman who journeys from the carelessness of childhood through an uneasy adolescence in search of love and sexual experience As Del dreams of becoming famous suffers embarrassment about her mother endures the humiliation of her body s insistent desires and tries desperately to fall in love she grapples with the crises that mark the passage to womanhood **Alice Munro's "Lives of Girls and Women"** Emmanuel Michaux,2001 *Lives of Girls and Women* Neil K. Besner,1990-08 A literary exploration of

Alice Munro's *Lives of Girls and Women* **The Canadian Novel** John Moss, 1983-02 A collection of essays about contemporary Canadian novels by Margaret Atwood, Robertson Davies, Margaret Laurence, Alice Munro, Mordechai Richler, Rudy Wiebe, as edited by professor of English at the University of Ottawa John Moss Patterns of the Past Roger Hall, William Westfall, Laurel Sefton MacDowell, 1996-07-25 *Patterns of the Past* has been published to commemorate the one hundredth anniversary of the founding of the Ontario Historical Society. Organized on 4 Sept 1888 as the Pioneer Association of Ontario, the Society adopted its current name in 1898. Its objectives for a century have been to promote and develop the study of Ontario's past. The purpose of this book is both to commemorate and to carry on that worthy tradition. Introduced by Ian Wilson, Archivist of Ontario and edited by Roger Hall, William Westfall, and Laurel Sefton MacDowell, this distinctive volume is a landmark not only in the Society's history but in the province's historiography. Eighteen scholars have pooled their talents to fashion a volume of fresh interpretive essays that chronicle and analyze the whole scope of Ontario's rich and varied past. New light is thrown on our understanding of early native peoples, rural life in Upper Canada, the opening of the North, the impact of railways and the growth of businesses and institutions. And there is much social study here too, especially of the new roles for women in industrial society, of working class experience, of ethnic groups and of children in our society's past. As well, there are innovative treatments of the conservation movement, of science's role in provincial society and of the relationship between society and culture in small towns. Anyone with an interest in the history of Canada's most populous province will find much in this comprehensive collection. *Alternative Temporalities* Teresa Valentini, Angela Weiser, John Zilcosky, 2024-11-30 *Alternative temporalities* have often emerged as a reaction to the normativizing force of time, demonstrating that time can be used as an instrument of power and oppression but also as a means to resist this very oppression. *Alternative Temporalities* draws on analyses of modern literature to examine this often neglected role of time. By exploring forms of temporal resistance in artistic representation such as short stories and novels that challenge the imposition of colonial gender or capitalist temporal orders, the book reveals how storytelling can be an essential tool in questioning and pushing back against coercive temporal structures. The book analyses literary representations of time that challenge dominant temporalities and intersect different disciplines such as gender and sexuality studies, trauma and Indigenous studies, race and identity, and religion. It features narrative analyses proposing alternative embodied experiences of time, focusing on topics including the temporality of the AIDS-affected body, the experience of time in prison and slowness in opposition to modern acceleration. Ultimately, *Alternative Temporalities* aims to create new theories as well as practices that may foster more diverse and inclusive ways of perceiving and embodying time.
