Lives On The Edge Single Mothers And Their:

Lives on the Edge Valerie Polakow, 1994-05-28 *Lives on the Edge* offers a penetrating deeply disturbing look into the other America inhabited by single mothers and their children. Its powerful and moving portraits force us to confront the poverty, destitution, and struggle for survival that await single mothers in one of the richest nations in the world. One in five children and one in two single mothers live in destitution today. The feminization and infantilization of poverty have made the United States one of the most dangerous democracies for poor mothers and their children to inhabit. Why then, Valerie Polakow asks, is poverty seen as a private affair, their problem not ours, and how can public policy fail to take responsibility for the consequences of our politics of distribution? Searching for an answer, Polakow considers the historical and ideological sources for society's attitudes toward single mothers and their children and shows how our dominant images of normal families and motherhood have shaped our perceptions, practices, and public policies. Polakow's account traces the historical legacy of discrimination against the dangerous classes and the undeserving poor, a legacy that culminates in the current public hostility towards welfare recipients. Polakow moves beyond the cold voice of statistics to take us into the daily lives of single mothers and their children. The stories of young black teenage mothers, of white single mothers, of homeless mothers are presented with clarity and quiet power. In a detailed look inside the classroom worlds of their children, Polakow explores what life is like if one is very young and poor and consigned to otherness in the landscape of school. School is a place that matters; it is also a place where children are defined as at risk or at promise. Polakow's astute analysis of poor children's pedagogy provides a critical challenge to educators. Written by an educator and committed child advocate, *Lives on the Edge* draws on social, historical, feminist, and public policy perspectives to develop an informed, wide-ranging critique of American educational and social policy. Polakow's recommendations in the areas of social policy and education point to useful cross-cultural models as well as successful small-scale programs in place in the United States. Yet Polakow constantly reminds us that small facts speak to large issues. By providing us with a living sense of the other America, she helps us to realize that their America is no other than ours. Stark, penetrating, and unflinching, this work challenges our cherished myths of justice and democracy.

Reader's Guide to Women's Studies Eleanor Amico, 1998-03-20 *The Reader's Guide to Women's Studies* is a searching

and analytical description of the most prominent and influential works written in the now universal field of women's studies. Some 200 scholars have contributed to the project which adopts a multi-layered approach allowing for comprehensive treatment of its subject matter. Entries range from very broad themes such as Health General Works to entries on specific individuals or more focused topics such as Doctors.

A New Introduction to Poverty Louis Kushnick, James Jennings, 1999. Since the end of the Second World War poverty in the United States has been a persistent focus of social anxiety, public debate and federal policy. This volume argues convincingly that we will not be able to reduce or eliminate poverty until we take the political factors that contribute to its continuation into account. Ideal for course use. *A New Introduction to Poverty* opens with a historical overview of the major intellectual and political debates surrounding poverty in the United States. Several factors have received inadequate attention: the impact of poverty on women, the synergy of racism and poverty, race and gender stratification of the workplace and crucially the ways in which the powerful use their resources to maintain the economic status quo. Contributors include Mimi Abramovitz, Peter Alcock, Bonnie Thornton Dill, Raymond Franklin, Herman George Jr, Michael B. Katz, Marlene Kim, Rebecca Morales, Sandra Patton, Valerie Polakow, Jackie Pope, Jill Quadagno, David C. Ranney, Barbara Ransby, Bette Woody and Maxine Baca Zinn.

Single Parents Karen L. Kinnear, 1999. *Single Parents* offers an overview of this growing phenomenon, the problems faced by single parent families and their impact on society. Topics include men and women as single parents, single mother families and poverty, the legal system and single parents, gay and lesbian parents, moral issues and the effects of growing up in a single parent family. The experiences of single parents in other countries are also discussed. This volume lists numerous resources, among them federal government programs, state statutes concerning child custody and adoption, private and public organizations, a guide to literature, films and videos and information on the Internet.

Living on the Edge Thomas Kieselbach, Kees van Heeringen, Michele La Rosa, Louis Lemkow, Katerina Sokou, Bengt Starrin, 2013-11-11. Thomas Kieselbach. This volume is the third publication of the project Youth Unemployment and Social Exclusion: Objective Dimensions, Subjective Experiences and Innovative Institutional Responses in Six European Countries (YUSEDER), supported by the Directorate General Research of the European Commission (DG Research) within the Targeted Socio-Economic Research Programme (TSER) of the 4th Framework Programme. The YUSEDER research project tries to answer some crucial questions with regard to the risk of social exclusion associated with long-term youth unemployment. The first volume described the available empirical evidence on youth unemployment and health in the participating six countries of the EU; the second volume drew attention to the concept of social exclusion in the context of youth unemployment as well as to vulnerable groups of young unemployed people. The 3 YUSEDER volume includes the qualitative analyses of 300 young long-term unemployed people (20-25 years old) regarding their experiences with their own unemployment and related processes of social exclusion in six European countries. The aim of the study is to analyse the content and extent of social exclusion among young unemployed persons, including the specific courses and developments of

processes of social exclusion key mechanisms leading from unemployment to social exclusion protective factors and vulnerability factors and individual coping mechanisms with regard to unemployment and the risk of social exclusion
