Cooperation in Research and Development Nicholas S. Vonortas, 2012-12-06 Cooperation in Research and Development provides an empirical and theoretical analysis of a distinct form of inter firm collaboration in Research Development R D research joint ventures RJVs Of all types of cooperation RJVs have received the most attention in both formal industrial organization and science and technology policy literature The emerging theoretical economic literature on incentives of firms to join RJVs has not been followed by much empirical work Cooperation in Research and Development attempts to fill the void caused by this lack of consistent data on the rate of RJV formation RJV characteristics and RJV member characteristics Significant attention is paid to the role of RJVs in facilitating virtual firm diversification as necessary to pursue particular technological objectives An effort is also made to blend the reported theoretical and empirical analyses with conceptual models of the process of technological innovation and models of industrial evolution in order to provide answers beyond the reach of the received economic theory Cooperation in Research and Development should be of interest to academic economists policy makers and business representatives The microeconomic issues the book deals with overlap significantly with the interests of decision makers both in government and business Forthcoming Books Rose Arny, 2000
