Memo Mathematics 2014 September P 2 Trial

Brian K. Payne

Memo Mathematics 2014 September P 2 Trial:

Show Me the Evidence Ron Haskins, Greg Margolis, 2014-12-01 The first comprehensive history of the Obama administration's evidence based initiatives. From its earliest days the Obama administration planned and enacted several initiatives to fund social programs based on rigorous evidence of success. Ron Haskins and Greg Margolis tell the story of six spanning preschool and K-12 education, teen pregnancy, employment and training, health and community based programs. Readers will appreciate the fast moving descriptions of the politics and policy debates that shaped these federal programs and the analysis of whether they will truly reshape federal social policy and greatly improve its impacts on the nation's social problems. Based on interviews with 134 individuals including advocates, officials at the Office of Management and Budget and the Domestic Policy Council, Congressional staff and officials in the federal agencies administering the initiatives as well as Congressional and administration documents and news accounts, the authors examine each of the six initiatives in separate chapters. The story of each initiative includes a review of the social problem the initiative addresses, the genesis and enactment of the legislation that authorized the initiative and the development of the procedures used by the administration to set the evidence standard and evaluation requirements including the requirements for grant applications and awarding of grants.

White-Collar Crime Brian K. Payne, 2016-07-05 This is a good textbook for undergraduate students as it explains clearly and simply the concepts and types of white collar crime, provides good examples and does not overwhelm the student with unnecessary information in most areas. Cindy A. Boyles, University of Tennessee at Martin. The thoroughly updated Second Edition of *White Collar Crime: The Essentials* continues to be a comprehensive yet concise resource addressing the most important topics students need to know about white collar crime. Author Brian K. Payne provides a theoretical framework and context for students that explores such timely topics as crimes by workers, sales oriented systems, crimes in the health care system, crimes by criminal justice professionals and politicians, crimes in the educational system, crimes in economic and technological systems, corporate crime, environmental crime and more. This easy to read teaching tool is a valuable resource for any course that covers white collar crime. Online resources also available FREE when used with the new edition.
