Industrial Development in Africa Berhanu Abegaz,2018-02-21 Industrial Development in Africa critically synthesizes and reframes the debates on African industrial development in a capability opportunity framework It recasts the challenge in a broader comparative context of successive waves of catchup industrialization experiences in the European periphery Latin America and East Asia Berhanu Abegaz explores the case for resource based and factor based industrialization in North Africa and Sub Saharan Africa by drawing on insights from the history of industrialization development economics political economy and institutional economics Unpacking complex and diverse experiences the chapters look at Africa at several levels continent wide sub regions on both sides of the Sahara and present analytical case studies of 12 representative countries Egypt Tunisia Ethiopia Kenya Tanzania Mauritius Zimbabwe South Africa Ghana Nigeria Senegal and Cote d Ivoire Industrial Development in Africa will be of interest to undergraduate and graduate students studying African development African economics and late stage industrialization The book will also be of interest to policymakers **Tajikistan** Asian Development Bank,2016-08-01 Building on robust economic growth since the end of a civil war in 1997 Tajikistan has transformed itself into a service economy driven by consumer spending fueled by strong remittance inflow Yet the transfer of resources to high value added sectors has been restrained and structural change has generated few new jobs Without sufficient employment opportunities in the services and industrial sectors agriculture became the fallback for most of the labor force To continue its economic growth Tajikistan requires new drivers from a diversified industry sector and a modernized economy through structural transformation and export diversification *Rebuilding resilient and sustainable agriculture in Somalia (Full report)* Food and Agriculture Organization of the United Nations,2018-11-02 This report

documents the pressures on Somalia's livestock and crop subsectors over the years but notes that there is a cause for optimism thanks to the country's resilience and resources. These include a variety of agroecological zones and vast tracts of arable land and areas suitable for livestock production which in turn can support markets, export trade and overall growth.

Memorandum Royal Economic Society (Great Britain), 1927 **Mining for Change** John Page, Finn Tarp, 2020-02-13. For a growing number of countries in Africa, the discovery and exploitation of natural resources is a great opportunity but one accompanied by considerable risks. Countries dependent on oil, gas and mining have tended to have weaker long-run growth, higher rates of poverty and greater income inequality than less resource-abundant economies. For these resource-producing economies, relative prices make it more difficult to diversify into activities outside of the resource sector, limiting structural change. *Mining for Change: Natural Resources and Industry in Africa* presents research undertaken to understand how better management of the revenues and opportunities associated with natural resources can accelerate diversification and structural change in Africa. It begins with essays on managing the boom, the construction sector and linking industry to the major issues that frame the question of how to use natural resources for structural change. It reports the main research results for five countries: Ghana, Mozambique, Uganda, Tanzania and Zambia. Each country study covers managing the boom, the construction sector and linking industry to the resource. *Mining for Change* argues that good policy can make a difference and sets out ideas for policy change and widening the options for structural change. Learn About America's Monetary Policy: Interest Rates and Economic Projections. Interspersed with attractive graphics and tabular data, this updated report estimates that this year's deficit will be noticeably smaller than the U.S. Congressional Budget Office (CBO) projected in March and fiscal year 2015 will mark the sixth consecutive year in which the deficit declined as a percentage of gross domestic product (GDP) since it peaked in 2009. This report provides economists, fiscal planners and budget teams with a valuable tool for long-term decision making based on CBO's projections. In addition to the Gross Domestic Product and its growth, this report also provides guidance for areas of Federal revenues, Baseline Budget Projections for 2016 to 2025 and Federal Debt from 2016 to 2025, plus more. High school students and above may find this report beneficial for U.S. economy, economic conditions and America's debt. Research papers, American citizens, small business corporations, lobbyists, fiscal managers, economists and media/news outlets may find this information invaluable for understanding America's future growth and management of debt.
