Memoirs of Napoleon Bonaparte Fauvelet de Bourrienne,2015-11-17 In introducing the present edition of M de Bourrienne s Memoirs to the public we are bound as Editors to say a few Words on the subject Agreeing however with Horace Walpole that an editor should not dwell for any

length of time on the merits of his author we shall touch but lightly on this part of the matter We are the more ready to abstain since the great success in England of the former editions of these Memoirs and the high reputation they have acquired on the European Continent and in every part of the civilised world where the fame of Bonaparte has ever reached sufficiently establish the merits of M de Bourrienne as a biographer These merits seem to us to consist chiefly in an anxious desire to be impartial to point out the defects as well as the merits of a most wonderful man and in a peculiarly graphic power of relating facts and anecdotes With this happy faculty Bourrienne would have made the life of almost any active individual interesting but the subject of which the most favourable circumstances permitted him to treat was full of events and of the most extraordinary facts The hero of his story was such a being as the world has produced only on the rarest occasions and the complete counterpart to whom has probably never existed for there are broad shades of difference between Napoleon and Alexander Caesar and Charlemagne neither will modern history furnish more exact parallels since Gustavus Adolphus Frederick the Great Cromwell Washington or Bolivar bear but a small resemblance to Bonaparte either in character fortune or extent of enterprise For fourteen years to say nothing of his projects in the East the history of Bonaparte was the history of all Europe With the copious materials he possessed M de Bourrienne has produced a work which for deep interest excitement and amusement can scarcely be paralleled by any of the numerous and excellent memoirs for which the literature of France is so justly celebrated M de Bourrienne shows us the hero of Marengo and Austerlitz in his night gown and slippers with a trait de plume he in a hundred instances places the real man before us with all his personal habits and peculiarities of manner temper and conversation The friendship between Bonaparte and Bourrienne began in boyhood at the school of Brienne and their unreserved intimacy continued during the most brilliant part of Napoleon s career We have said enough the motives for his writing this work and his competency for the task will be best explained in M de Bourrienne s own words which the reader will find in the Introductory Chapter M de Bourrienne says little of Napoleon after his first abdication and retirement to Elba in 1814 we have endeavoured to fill up the chasm thus left by following his hero through the remaining seven years of his life to the last scenes of all that ended his strange eventful history to his deathbed and alien grave at St Helena A completeness will thus be given to the work which it did not before possess and which we hope will with the other additions and improvements already alluded to tend to give it a place in every well selected library as one of the most satisfactory of all the lives of Napoleon LONDON 1836 *Memoirs of Napoleon Bonaparte: Complete & Illustrated* L. A. Fauvelet De Bourrienne, 2024-01-23 The Memoirs of the time of Napoleon may be divided into two classes those by marshals and officers of which Suchet s is a good example chiefly devoted to military movements and those by persons employed in the administration and in the Court giving us not only materials for history but also valuable details of the personal and inner life of the great Emperor and of his immediate surroundings Of this latter class the Memoirs of Bourrienne are among the most important Long the intimate and personal friend of Napoleon both at school and from the

end of the Italian campaigns in 1797 till 1802 working in the same room with him using the same purse the confidant of most of his schemes and as his secretary having the largest part of all the official and private correspondence of the time passed through his hands Bourrienne occupied an invaluable position for storing and recording materials for history The Memoirs of his successor Meneval are more those of an esteemed private secretary yet valuable and interesting as they are they want the peculiarity of position which marks those of Bourrienne who was a compound of secretary minister and friend The accounts of such men as Miot de Melito Raederer etc are most valuable but these writers were not in that close contact with Napoleon enjoyed by Bourrienne Bourrienne s position was simply unique and we can only regret that he did not occupy it till the end of the Empire Thus it is natural that his Memoirs should have been largely used by historians and to properly understand the history of the time they must be read by all students They are indeed full of interest for every one But they also require to be read with great caution When we meet with praise of Napoleon we may generally believe it for as Thiers Consulat ii 279 says Bourrienne need be little suspected on this side for although he owed everything to Napoleon he has not seemed to remember it But very often in passages in which blame is thrown on Napoleon Bourrienne speaks partly with much of the natural bitterness of a former and discarded friend and partly with the curious mixed feeling which even the brothers of Napoleon display in their Memoirs pride in the wonderful abilities evinced by the man with whom he was allied and jealousy at the way in which he was outshone by the man he had in youth regarded as inferior to himself Sometimes also we may even suspect the praise Thus when Bourrienne defends Napoleon for giving as he alleges poison to the sick at Jaffa a doubt arises whether his object was to really defend what to most Englishmen of this day with remembrances of the deeds and resolutions of the Indian Mutiny will seem an act to be pardoned if not approved or whether he was more anxious to fix the committal of the act on Napoleon at a time when public opinion loudly blamed it The same may be said of his defence of the massacre of the prisoners of Jaffa
