Litow, Tina Kelley, 2021 Breaking Barriers shows how to redesign high schools so that all students can move on to college and successful careers In a negation of the American Dream a child s zip code is currently a far better predictor of success than hard work intelligence or resilience This book tells the story of a school model that focuses on equity and works to prove that all young people can achieve academic excellence given the right support P TECH Pathways in Technology Early College High School combines public high schools and community colleges in partnership with employers providing both opportunity and support for all students This innovative and effective approach eliminates barriers to replication by engaging all stakeholders The first P TECH which opened in a low income Brooklyn neighborhood is now a model for school reform Praised by President Obama and heads of nations its story is told through the voices of students who have shattered the myths about which students can succeed Breaking Barriers is a compelling read It shows that a clear pathway from school to college to career goes beyond an aspiration it s achievable and for all students The global success of P Tech schools is something education government and business leaders need to learn about and get behind Arne Duncan former United States Secretary of Education Breaking Barriers is a must read The P Tech story shows that quality schools leading to not just a high school diploma but college completion and career success are critical to our future This is the kind of opportunity and support that must be provided to all students regardless of income or race Darren Walker president Ford Foundation      *ARS Journal* American Rocket Society, 1959 Supplements accompany some issues      **ARS Journal** , 1959 Beginning Oct 1959 some issues include Russian supplement
