EPA 625/1, 1983-10 **Entomology and Pest Management** Larry P. Pedigo, Marlin E. Rice, Rayda K. Krell, 2021-03-15 Larry Pedigo and Marlin Rice have produced the top pest management textbook on the market for decades. New co-author Rayda Krell has helped bring the book into the twenty-first century. The successful core concepts of the book: understanding pests in their environment and using an ecological approach to combat them, remain as robust as ever. Features that instructors have come to rely on have been retained, including insect diagnostic boxes with detailed information on important species and species groups, and an appendix with keys to major insect orders. New material on genetically modified plant species and regional pest technologies complement concepts in basic and applied entomology. Taxonomies and systematics of insects have been updated throughout the book.
