ICOLLEC 2021 Sigit Prawoto,Roosi Rusmawati ,Syariful Muttaqin,2022-07-29 The goal of ICOLLEC 2021 is to provide an academic forum for disseminating diverse scholarly analytical and practical perspectives on the tenets and nexuses through interdisciplinary dialog in the realms of humanities education and the arts The topic for this year is The Dynamics of Language Literature Education Art and Culture of a Changing Society in the Age of Disruption We pledge to capture a vivid portrayal and a picturesque sphere for the various cutting edge phenomena in language literature education art and culture While the contributions and passion shown throughout the conference have far surpassed our expectations As a result we are overwhelmed with a sense of triumph and enlightenment It is a great accomplishment for us to present the conference

proceedings as the remembrance of the authors and delegates of ICOLLEC 2021 in a permanent record of what was presented. The proceedings are organized into three sections: language, literature, and culture. We collected 35 remarkable manuscripts in the discussion from around 60 papers presented. Hopefully you will find it insightful, fascinating, and inspirational. This proceeding also includes two submissions from representatives of notable keynote speakers. For the subtheme in Representation of the Disruption Era in Literature, Prof. Dr. Sharmani Patricia Gabriel has written a piece titled 'The Humanities in an Age of Neoliberal Disruption'. For the sub-theme of Local Culture in Global Society, Dr. Hippolytus Kewwel M. Hum wrote an article entitled 'Hermeneutic Dilemma in the Indonesian Interfaith Dialogue Program'. Unfortunately, several manuscripts were not accepted due to reviewing results and capacity limits. We would like to extend our sincere gratitude and appreciation to distinguished reviewers for a thorough process in ensuring we obtain exceptional content for manuscripts published in EUDL proceedings. Finally, we would also like to acknowledge with much appreciation the organizing committee for their efforts and dedication.

Mahasiswa IAIN Surakarta *Text Complexity and Reading Comprehension Tests* Erik Castello, 2008. Based on the analysis of a specially compiled corpus of internationally recognized English as a foreign language (EFL) reading tests at different levels of proficiency, this volume explores the relation between the complexity of written texts and the difficulty of reading comprehension tests. It brings together linguistic investigations into the text inherent complexity of the tests and a study of the data derived from their administration to groups of Italian university students. The study of text complexity draws on corpus linguistics, text linguistics, and systemic functional linguistics. Both quantitative and qualitative analyses are carried out on the language used in the reading texts and in the related tasks that make up the corpus of tests. The assessment of test difficulty on the other hand is informed by research on language testing and in particular by findings and methodologies of Classical Test Theory and Item Response Theory. Relevant aspects of these theories are used to analyze and interpret both the data obtained from the administration of the tests and the data collected by means of feedback questionnaires completed

by test takers The application of such diverse methodologies and the subsequent comparison of the results of the analyses has brought out interesting correlations between text inherent complexity perceived test difficulty and actual test difficulty
