

Lord of the Flies - Fear of the Unknown

Each individual is acknowledged as good or bad, but is there such a thing as good and bad? Golding, who has written the Lord of the Flies, expresses and shows how people react towards each other. The Lord of the Flies shows the image of civilization and influence.

Golding articulates each and every individual in detail. Around the 1700's, two men named Hobbes and Locke had an intriguing conversation, "What are humans? ", "Were we meant to be savages? ", "What would ourselves be without laws? " These questions are yet to be answered by your own opinion. 'The Lord of the Flies' has many situations relating to the nature of humanity. The nature of humanity describes the characteristics such as society, influence and individuality. Society implicates the nature of humanity, and it relates to the type of civilization the boys are in. The situation in 'The Lord of the Flies' implicates the fact that the boys have grown to be savages, because of the lack of rules and adults that there are, to prevent violence and wrongful behaviour. To start with, Ralph found a conch and blew it to commemorate other children who were also stranded on this island.

The boys begin to grow on the island and live in savagery. (Golding, page 23) Roger chose to have a vote. Ralph was chosen to be the leader and chief. Ralph assigned roles that needed to be completed on a daily basis to everyone, and they had to learn to work together in order to survive on the island. The boys have social conversations to keep up with plans and duties. Ralph's priorities were to build shelters and keep a fire going for a smoke signal; these tasks would help the group to be rescued. With the thought of them never returning home, the group became stressed, angered and scared.

Soon enough everything began to transform. The rules did not matter anymore, and Jack neglected the tasks that he was told to complete. He wanted to be the leader. Without rules, they became more savage. This just goes to show, that people need a system of rules and regulations. As savagery grows within each and every member, the sensation of wanting to kill grows as well. Simon was murdered by the pierce of the spears by the littluns and the choir boys.

"There's too much talking out of turn, because we can't have proper assemblies if you don't stick to the rules. " (Golding, page-98) This quote was said by Ralph, this shows that the boys are inactively controlled. With the boys forgetting their main goal, they get more captivated into finding meat and survival on the island. Society can change many things, population, groups, friends, and civilization. Influence affects the human mind; it is an example of a person to be easily manipulated as to be controlled. Influence has taken its affect in many ways, peer pressure, a feeling to belong and inspiration.

Influence has an effect on Ralph since that he is the leader, he tells everyone what to do in

Critical Essays on William Golding James R. Baker, 1988 **Transiciones** Todd Ruecker, 2015-02-15 *Transiciones* is a thorough ethnography of seven Latino students in transition between high school and community college or university. Data gathered over two years of interviews with the students, their high school English teachers, and their writing teachers and administrators at postsecondary institutions reveal a rich picture of the conflicted experience of these students as they attempted to balance the demands of schooling with a variety of personal responsibilities. Todd Ruecker explores the disconnect between students' writing experiences in high school and higher education and examines the integral role that writing plays in college. Considering the almost universal requirement that students take a writing class in their critical first year of college, he contends that it is essential for composition researchers and teachers to gain a fuller understanding of the role they play in supporting and hindering Latina and Latino students' transition to college. Arguing for situating writing programs in larger discussions of high school/college alignment, student engagement, and retention, *Transiciones* raises the profile of what writing programs can do while calling composition teachers, administrators, and scholars to engage in more collaboration across the institution, across institutions, and across disciplines to make the transition from high school to college writing more successful for this important group of students. *Lord Macaulay's Essays and Lays of Ancient Rome* Thomas Babington Macaulay, Baron Macaulay, 1893 **Introduction to the essay** Edmund Fuller, 1972 *Balance With Blended Learning* Catlin R.
