Handbook of Field Experiments Esther Duflo, Abhijit Banerjee, 2017-03-21 Handbook of Field Experiments Volume Two explains how to conduct experimental research presents a catalog of research to date and describes which areas remain to be explored The new volume includes sections on field experiments in education in developing countries how to design social protection programs a section on how to combat poverty and updates on data relating to the impact and determinants of health levels in low income countries Separating itself from circumscribed debates of specialists this volume surpasses the many journal articles and narrowly defined books written by practitioners This ongoing series will be of particular interest to scholars working with experimental methods Users will find results from politics education and more Balances methodological insights with analyses of principal findings and suggestions for further research Appeals broadly to social scientists seeking to develop an expertise in field experiments Written in a language that is accessible to graduate students and non specialist economists

The Inner Lives of Markets Ray Fisman, Tim Sullivan, 2016-06-07 America's economic revolution isn't just driven by technology It's about markets The past twenty five years have witnessed a remarkable shift in how we get the stuff we want If you've ever owned a business rented an apartment or shopped online you've had a front row seat for this revolution in progress Breakthrough companies like Amazon and Uber have disrupted the old ways and made the economy work better all thanks to technology At least that's how the story of the modern economy is usually told But in this lucid wry book Ray Fisman and Tim Sullivan show that the revolution is bigger than tech it is really a story about the transformation of markets From the auction theories that power Google's ad sales algorithms to the models that online retailers use to prevent internet fraud even the most high tech modern businesses are empowered by theory first envisioned by economists And we're all participants in this revolution Every time you book a room on Airbnb hire a car on Lyft or click on an ad you too are reshaping our social institutions and our lives The Inner Lives of Markets is necessary reading for the modern world it reveals the blueprint for how we work live and shop and offers wisdom for how to do it better

Information, Incentives, and Education Policy Derek A. Neal, 2018-05-14 Derek Neal writes that economists must analyze public education policy in the same way they analyze other procurement problems He shows how standard tools from economics research speak directly to issues in education For mastering the models and tools that economists of education should use in their work there is no better resource available
