# Mathematical Literacy PSeptember 2014 Memo

**John L. Rury**

## **Mathematical Literacy PSeptember 2014 Memo:**

**An Age of Accountability** John L. Rury, 2023-10-13 An Age of Accountability highlights the role of test based accountability as a policy framework in American education from 1970 to 2020 For more than half a century the quest to hold schools and educators accountable for academic achievement has relied almost exclusively on standardized assessment The theory of change embedded in almost all test based accountability programs held that assessment with stipulated consequences could lead to major improvements in schools This was accomplished politically by proclaiming lofty goals of attaining universal proficiency and closing achievement gaps which repeatedly failed to materialize But even after very clear disappointments no other policy framework has emerged to challenge its hegemony The American public today has little confidence in institutions to improve the quality of goods and services they provide especially in the public sector As a consequence many Americans continue to believe that accountability remains a vital necessity even if educators and policy scholars disagree

*Digital Samaritans* Jim Ridolfo, 2015-09-16 Digital Samaritans explores rhetorical delivery and cultural sovereignty in the digital humanities The exigence for the book is rooted in a practical digital humanities project based on the digitization of manuscripts in diaspora for the Samaritan community the smallest religious ethnic group of 770 Samaritans split between Mount Gerizim in the Palestinian Authority and in Holon Israel Based on interviews with members of the Samaritan community and archival research Digital Samaritans explores what some Samaritans want from their diaspora of manuscripts and how their rhetorical goals and objectives relate to the contemporary existential and rhetorical situation of the Samaritans as a living breathing people How does the circulation of Samaritan manuscripts especially in digital environments relate to their rhetorical circumstances and future goals and objectives to communicate their unique cultural history and religious identity to their neighbors and the world Digital Samaritans takes up these questions and more as it presents a case for collaboration and engaged scholarship situated at the intersection of rhetorical studies and the digital humanities

**Waging a Good War** Thomas E. Ricks, 2022-10-04 1 New York Times bestselling author and Pulitzer Prize winner Thomas E Ricks offers a new take on the Civil Rights Movement stressing its unexpected use of military strategy and its lessons for nonviolent resistance around the world Ricks does a tremendous job of putting the reader inside the hearts and souls of the young men and women who risked so much to change America Riveting Charles Kaiser The Guardian In Waging a Good War the bestselling author Thomas E Ricks offers a fresh perspective on America s greatest moral revolution the civil rights movement of the 1950s and 1960s and its legacy today While the Movement has become synonymous with Martin Luther King Jr s ethos of nonviolence Ricks a Pulitzer Prize winning war reporter draws on his deep knowledge of tactics and strategy to advance a surprising but revelatory idea the greatest victories for Black Americans of the past century were won not by idealism alone but by paying attention to recruiting training discipline and organization the hallmarks of any successful military campaign An engaging storyteller Ricks deftly narrates the Movement s triumphs and

defeats He follows King and other key figures from Montgomery to Memphis demonstrating that Gandhian nonviolence was a philosophy of active not passive resistance involving the bold and sustained confrontation of the Movement's adversaries both on the ground and in the court of public opinion While bringing legends such as Fannie Lou Hamer and John Lewis into new focus Ricks also highlights lesser known figures who played critical roles in fashioning nonviolence into an effective tool the activists James Lawson James Bevel Diane Nash and Septima Clark foremost among them He also offers a new understanding of the Movement's later difficulties as internal disputes and white backlash intensified Rich with fresh interpretations of familiar events and overlooked aspects of America's civil rights struggle *Waging a Good War* is an indispensable addition to the literature of racial justice and social change and one that offers vital lessons for our own time

Developing Deep Knowledge in Middle School Mathematics Sergei Abramovich, Michael L. Connell, 2021-05-10 This textbook is for prospective teachers of middle school mathematics It reflects on the authors' experience in offering various mathematics education courses to prospective teachers in the US and Canada In particular the content can support one or more of 24 semester hour courses recommended by the Conference Board of the Mathematical Sciences 2012 for the mathematical preparation of middle school teachers The textbook integrates grade appropriate content on all major topics in the middle school mathematics curriculum with international recommendations for teaching the content making it relevant for a global readership The textbook emphasizes the inherent connections between mathematics and real life since many mathematical concepts and procedures stem from common sense something that schoolchildren intuitively possess This focus on teaching formal mathematics with reference to real life and common sense is essential to its pedagogical approach In addition the textbook stresses the importance of being able to use technology as an exploratory tool and being familiar with its strengths and weaknesses In keeping with this emphasis on the use of technology both physical manipulatives and digital commonly available educational software it also explores e.g. the use of computer graphing software for digital fabrication In closing the textbook addresses the issue of creativity as a crucial aspect of education in the digital age in general and in mathematics education in particular
