Social Welfare Policy John G. McNutt, Richard Hoefer,2020-10-29 **Social Welfare Policy** Responding to a Changing World is a topical comprehensive introduction to social welfare policy It uses a contemporary framework that explicitly addresses three forces that have redefined the social policy arena the growth of the information economy the rise of globalization and our current environmental crisis This framework is applied to the six traditional arenas of policy child and family services health and mental health poverty and inequality housing and community development crime and violence and aging and explores how to find solutions to both long enduring and brand new problems

John McNutt and Richard Hoefer's introductory text represents a move forward in social welfare policy thinking that is built on the latest scholarship and teaches students that the time to create social policies for the future is in the present Power and Influence of Economists Jens Maesse, Stephan Pühringer, Thierry Rossier, Pierre Benz, 2021-05-23 Economists occupy leading positions in many different sectors including central and private banks multinational corporations the state and the media as well as serving as policy consultants on everything from health to the environment and security Power and Influence of Economists explores the interconnected relationship between power knowledge and influence which has led economics to be both a source and beneficiary of widespread power and influence The contributors to this book explore the complex and diverse methods and channels that economists have used to exert and expand their influence from different disciplinary and national perspectives Four different analytical views on the role of power and economics are taken first the role of economic expert discourses as power devices for the formation of influential expertise second the logics and modalities of governmentality that produce power knowledge apparatuses between science and society third economists as involved in networks between academia politics and the media and forth economics considered as a social field including questions of legitimacy and unequal relations between economists based on the detention of various capitals The volume includes case studies on a variety of national configurations of economics such as the US Germany Italy Switzerland Greece Mexico and Brazil as well as international spaces and organisations such as the IMF This book provides innovative research perspectives for students and scholars of heterodox economics cultural political economy sociology of professions network studies and the social studies of power discourse and knowledge The Open Access version of this book available at <https://www.taylorfrancis.com/books/oa-edit/10.4324/9780367817084> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license A Theory of Insurance and Gambling John A. Nyman, 2024 This book holds that the demand for insurance is best understood not by focusing on risk preferences but by focusing on the additional income the states of the world that trigger the income transfer from the insurer and the value of income and consumption in those states It is unlikely that demand can be understood if the analyst limits the gain from insurance to coverage of the uninsured loss alone It is also unlikely that the demand can be understood if the analyst limits the analysis to a movement along a static risk averse utility or value function rather than acknowledging that a shift of this function and thus in the utility or value of additional income often coincides with the occurrence of the event that triggers the payout
