Advertising History from the 1960s to Today* Samuel Fulmer,2019-04-18 Bachelor Thesis from the year 2015 in the subject Communications Public Relations Advertising Marketing Social Media grade 2 University of Salzburg language English abstract This thesis will mainly look at two fast food restaurants McDonald's and Burger King and will look at several advertisements from the 1960s to today It will analyze the advertisements in terms of linguistic structures and will look at how advertisements have developed over the decades They are in our everyday life on our phones when we look for a new app to install on television while watching our favorite show on our notebooks when we check our emails or even when we walk down the street to get our morning coffee advertisements are everywhere and one cannot escape or ignore them Yet as much as pop ups billboards and commercial breaks crowd our lives in a way they do not bother us at all and that is the cunning beauty of advertising It should get the point across making us aware of something telling us about a new product convincing us to purchase an item by subtly trying to persuade us that we need it when in reality we do not whatever it is Advertisements can come in many forms and genres they can be a poem they can be a little short story a catchy jingle or just a picture whatever form they might take the message of persuading the consumer to buy the advertised product makes this accumulation of genres a genre in itself It moreover is important to mention that whos and wheres of advertising are factors that have to be taken into consideration when drafting an advertisement for a product What is the product and who could benefit from it Where should the advertisement to the product appear so it can be easily seen by the target group How can the features of the product be made easy to read and easy to understand and furthermore and more importantly urge the target group to purchase it here is where language comes into play *The Sign of the Burger* Joe L. Kincheloe,2002 The Sign of the Burger examines how McDonald's captures our imagination both as a shorthand for explaining the power of American culture and as a symbol of the strength of consumerism
