The book describes the process of engineering preparation of on site construction works in all phases of the construction life cycle from the design phase preparing the financial plan and procurement scheme for the owner before tendering the contract, the tendering phase and after bid completion. A list of procedures is presented for planning the construction site in order to simplify the engineer's work of site and temporary works planning. The Engineer's Manual of Construction Site Planning is for all those involved in the planning of construction sites: construction managers, construction engineers and quantity surveyors as well as for students in civil engineering and construction.
