

GT550

Built to make the long haul with sportbike finesse, the GT550 is driven by a proven in-line Four that pours on the power. For care-free touring there's an oil cooler to improve lubricating efficiency, especially during extended high-speed rides. Plus a low-maintenance electronic ignition and 'silent' cam chain that adjusts automatically. We also included shaft drive, for super-smooth power delivery and the extra measure of reliability that serious touring demands. Then we added a large-capacity fuel tank, air-adjustable suspension front and rear, and the all-weather stopping power of dual front discs with no-fade sintered metal pads. Whether you're going down to the corner store or across a continent, do it on a light touring machine with a true sportbike heritage—the new GT550.

① Race-bred DOHC Four offers extra mid-range power and instant throttle response. Rubber mounts isolate vibration for long-range touring comfort.

② Air shocks are easily adjusted through a single valve. An equalizer tube ensures perfect left-right balance, and damping is adjustable four ways.
