together more than a decade of studies by the UK's Centre for Education and Youth this book provides a new way of understanding the many ways young people in England are pushed to the margins of the education system and in turn society. Each contributor shares the personal stories of the young people they have encountered over the course of their fieldwork and practice combining this with accessible syntheses of previous studies alongside extensive analysis of national datasets and key publications. By unpicking the many overlapping factors that contribute to different groups' vulnerability the book demonstrates the need to understand each young person's life story and to respond quickly and collaboratively to the challenges they face. The chapters conclude with action points highlighting the steps individuals, institutions and policy makers can take to bring young people in from the margins. *Young People on the Margins* showcases first hand examples of where these young people's needs are being addressed and trends bucked drawing out what can and must be learned for teachers, leaders, youth workers and policy makers.

***Lifespan Development in Context*** Tara L. Kuther, 2018-01-02 Award winning author Tara L. Kuther presents *Lifespan Development in Context* a topically organized version of her bestselling *Lifespan Development* text that provides a panoramic view of the many influences that shape human development. Kuther's student friendly narrative illustrates how the places, sociocultural environments and ways in which we are raised influence who we become and how we grow and change throughout our lives. Three core themes resonate throughout each chapter: the centrality of context, the importance of research and the value of applied developmental science. Foundational theories and classic studies are combined with contemporary research and culturally diverse perspectives for a modern introduction to the field that is both comprehensive and concise. Visual overviews, case studies and critical thinking questions encourage self reflection and class discussion ensuring students have the tools they need to apply course concepts to their lives and future careers.

***Marginality in India*** Kedilezo Kikhi, Dharma Rakshit Gautam, 2023-01-09 The book takes a close look into the definitions and categorizations of marginality, inequality, agency and location in society. It examines the systems of marginalization and othering by exploring perspectives of socially excluded people and communities in Northeast India. The context of Northeast India provides unique perspectives on the debates around marginality due to the existence of multi ethnic cultures in the region and since its prolonged colonial historical experience alienated it from the rest of India. This volume focuses on the issues pertaining to tribe, caste, gender, identity, religion and physical disability in the region. It also looks at the roles which institutions, education and the media play in the creation and perpetuation of social exclusion and the centre periphery binary. With essays from eminent scholars and social scientists the book discusses themes such as citizenship and borders, national and tribal identity, the role of the law, government and policies for countering exclusion and the challenges which socially excluded groups and communities face to gain agency, autonomy and the right to equality. This book will be useful for scholars and researchers of sociology, Northeast India studies, political sociology, development studies, political science, gender studies and social anthropology.
