Catalogue of Printed Books British Museum, 1887 *Catalogue of Printed Books in the Library of the British Museum* ... British Museum. Department of Printed Books, 1885 Catalogue of Printed Books British Museum. Department of Printed Books, 1885 Also a History of Philosophy, Volume 3 Jürgen Habermas, 2025-03-18 In the final volume of his history of philosophy Jürgen Habermas offers a series of brilliant interpretations of the thinkers who set the agenda for contemporary philosophy Beginning with masterful readings of Hume and Kant he traces the genealogy of their postmetaphysical thinking through the main currents of historicism and German Idealism and the multifarious reactions to Hegel's influential system culminating in nuanced readings of Marx Kierkegaard and Peirce Through his analysis of their work Habermas demonstrates the interpretive fecundity of the central themes of his philosophical enterprise his pragmatist theory of meaning his communicative theories of subjectivity and sociality and his discursive theory of normativity in its moral juridical and political manifestations In contrast to the bland compendia of thinkers and positions generally presented in surveys of the history of philosophy Habermas's thematically focused interpretations are destined to provoke controversy and stimulate dialogue With this work one of the indisputably great thinkers of our time presents a powerful vindication of his conception of philosophy as an inherently discursive and not merely analytical or speculative enterprise

Kantian Subjects Karl Ameriks, 2019-11-07 In this volume Karl Ameriks explores Kantian subjects in three senses In Part I he first clarifies the most distinctive features such as freedom and autonomy of Kant's notion of what it is for us to be a subject Other chapters then consider related subjects that are basic topics in other parts of Kant's philosophy such as his notions of necessity and history Part II examines the ways in which many of us as late modern have been highly influenced by Kant's philosophy and its indirect effect on our self-conception through successive generations of post-Kantians such as Hegel and Schelling and early Romantic writers such as Hölderlin Schlegel and Novalis thus making us Kantian subjects in a new historical sense By defending the fundamentals of Kant's ethics in reaction to some of the latest scholarship in the opening chapters Ameriks offers an extensive argument that Hölderlin expresses a valuable philosophical position that is much closer to Kant than has generally been recognized He also argues that it was necessary for Kant's position to be supplemented by the new conception introduced by the post-Kantians of philosophy as fundamentally historical and that this conception has had a growing influence on the most interesting strands of Anglophone as well as Continental philosophy

The City Crown by Bruno Taut Matthew Mindrup, Ulrike Altenmüller-Lewis, 2016-03-09 This book is the first English translation of the German architect Bruno Taut's early twentieth-century anthology *Die Stadtkrone* *The City Crown* Written under the influence of World War I Taut developed *The City Crown* to promote a utopian urban concept where people would live in a garden city of apolitical socialism and peaceful collaboration around a single purpose-free crystalline structure Taut's proposal sought to advance the garden city idea of Ebenezer Howard and rural aesthetic of Camillo Sitte's urban planning schemes by merging them with his own city crown

concept The book also contains contributions by the Expressionist poet Paul Scheerbart the writer and politician Erich Baron and the architectural critic Adolf Behne Although the original German text was republished in 2002 only the title essay of The City Crown has previously been translated into English This English translation of Taut s full anthology complete with all illustrations and supplementary texts fills a significant gap in the literature on early modern architecture in Germany and the history of urban design It includes a translators preface introduction and afterword to accompany the original composition of essays poems designs and images These original texts are accompanied by illustrations of Taut s own designs for a utopian garden city of 300 000 inhabitants and over 40 additional historic and contemporary examples The new preface to The City Crown explains the premise for the English translation of Taut s anthology its organization and the approaches taken by the translators to maintain the four different voices included in the original work Matthew Mindrup s introduction critically examines the professional and intellectual developments leading up to and supporting Bruno Taut s proposal to advance the English garden city concept with a centralized communal structure of glass the city crown Through the careful examination of original
