La Guerre Iranirak:

The Iran-Iraq War Nigel John Ashton, Bryan R. Gibson, 2013 This volume offers a wide ranging examination of the Iran Iraq War 1980-88 featuring fresh regional and international perspectives derived from recently available new archival material Three decades ago Iran and Iraq became embroiled in a devastating eight year war which served to re define the international relations of the Gulf region The Iran Iraq War stands as an anomaly in the Cold War era it was the only significant conflict in which the interests of the United States and Soviet Union unwittingly aligned with both superpowers ultimately supporting the Iraqi regime The Iran Iraq War reassesses not only the superpower role in the conflict but also the war's regional and wider international dimensions by bringing to the fore fresh evidence and new perspectives from a variety of sources It focuses on a number of themes including the economic dimensions of the war and the roles played by a variety of powers including the Gulf States Turkey France the Soviet Union and the United States The contributions to the volume serve to underline that the Iran Iraq war was a defining conflict shaping the perspectives of the key protagonists for a generation to come This book will be of much interest to students of international and Cold War history Middle Eastern politics foreign policy and International Relations in general **La guerre Iran-Irak** Corentin de

unique access to Iranian naval archives and examines in detail the naval war between 1981 and early 1984 Well away from the major battlefields on the ground in the Iran Iraq War and hidden from the gaze of the curious public the navies and air forces of the two belligerents contested the waters of the Persian or Arabian Gulf This naval aspect of the war still remains

largely unknown and hugely underreported in the West other than in terms of the Tanker War and the impact upon international shipping Yet this was a war in which Iran and Iraq pitted the best technologies available to them bought from the world's leading arms manufacturers and exporters against each other's vital oil production and exports and against vital maritime lifelines Iran in particular relied upon caravans of shipping to import raw materials provide logistic support to the land war and to export oil based products Iraq would make the first and by far most extensive combat use of the famous Exocet anti ship missile long before its first claimed use by Argentina in the Falklands Malvinas War and would make extensive use of French sourced electronic warfare capabilities and Soviet anti radiation missiles Iran would make the first combat use of the F 14 Tomcat and its associated AIM 54 Phoenix air to air missile and would be the first to launch the RGM 84 Harpoon surface to surface missile in anger Far from being a backwater this was the testing ground for many cutting edge technologies Volume 2 of Iran Iraq Naval War draws upon unique access to Iranian naval archives and examines in detail the naval war between 1981 and early 1984 as Iraq struggled to defeat Iran's highly organized maritime caravans how each side experienced successes and failures in the employment of new technologies and their efforts to counter these This book is illustrated throughout with original photographs many in color and never previously published in the West and with specially commissioned color maps and the War series signature color artworks showing the ships and aircraft employed in this war
