Is Oedipus Online? Jerry Aline Flieger, 2005-05-06 Psychoanalysis as a navigation device for the cultural maze of the twenty first century Can Freud be updated in the twenty first century or is he a venerated but outmoded genius asks Jerry Aline Flieger In Is Oedipus Online Flieger stages an encounter between psychoanalysis and the new century testing the viability of Freud's theories in light of the emergent realities of our time Responding to prominent critics of psychoanalysis and approaching our current preoccupations from a Freudian angle she presents a reading of Freudian theory that coincides with and even clarifies new concepts in science and culture Fractals emergence topological modeling and other nonlinearities for example can be understood in light of both Freud's idea of the symptom as a nodal point and Lacan's concept of networks rather than sequential cause and effect that link psychic realities At the same time Flieger suggests how emerging paradigms in science and culture may elucidate Freud's cultural theory Like Slavoj Žižek editor of the Short Circuits series Flieger shifts effortlessly from field to field discussing psychoanalysis millennial culture nonlinear science and the landscape of cyberspace In the first half of the book Re-siting Oedipus she draws on the work of Lyotard Žižek Deleuze Virilio Baudrillard Haraway and others to refute the assumption of Freud's outdatedness in the new century Then in Freud Sitings in Millennial Theory she recasts oedipal theory siting sighting citing Freud in a twenty first century context Thinking of Oedipus decipherer of enigmas wanderer as a navigator or search engine allows us to see psychoanalysis as a navigation device for the cultural maze of the bimillennial era and Oedipus himself as a circuit of intersubjective processes by which we become human For humanity still needed in the posthuman century is at the core of Freud's theory Reading Freud today Flieger writes reminds us of the complications of the Sphinx's riddle the enigma that Oedipus only thought he solved the question of what it is to be human Psychoanalysis continues to pose that question at the crossroads between instincts and their vicissitudes

The Story of Your Life Steve Madison, 2020-10-12 And so the time has come for you to tell the story of your life How will you do it A straightforward linear narrative Perhaps you will adopt an experimental approach Do you aim to produce something of great artistic merit Will you tell the story simply or do you want to convey something complex and beguiling Will you be scrupulously truthful or do you intend to embroider the facts and events Perhaps you want to present a fantasy version of your life rather than the real thing Perhaps you want others to admire you and respect you so you will censor all the unsavory and disreputable things you did You definitely won't be presenting a warts and all account Or maybe you want people to know exactly who you are so you will tell it exactly as it is You will show the world your true self and they can take it or leave it What kind of audience do you want Do you seek people of refinement and the highest taste or are you eager for the masses to crowd in to hear your tale Are you an elitist or a populist Do you want to have as large an audience as possible or as select an audience as you can find Is quality better than quantity Will you produce a crowd pleasing thriller or a high minded meditation Perhaps a horror story captures the essence of your life or a sci fi or a western or a rom com It is
