The sky transitions from a deep blue at the top to a bright orange and yellow glow along the horizon, and then to a solid black at the bottom. Urfalino, Irma Erlingsdóttir, 2016-07-01 Being the first casualty of the international financial crisis Iceland was in many ways turned into a laboratory when it came to responding to one of the largest corporate failures on record This edited volume offers the most wide ranging treatment of the Icelandic financial crisis and its political economic social and constitutional consequences Interdisciplinary with contributions from historians economists sociologists legal scholars political scientists

and philosophers it also compares and contrasts the Icelandic experience with other national and global crises It examines the economic magnitude of the crisis the social and political responses and the unique transitional justice mechanisms used to deal with it It looks at backward looking elements including a societal and legal reckoning which included the indictment of a Prime Minister and jailing of leading bankers for their part in the financial crisis and forward looking features such as an attempt to rewrite the Icelandic constitution Throughout it underscores the contemporary relevance of the Icelandic case While the Icelandic economic recovery has been much quicker than expected it shows that public faith in political elites has not been restored This text will be of key interest to scholars policy makers and students of the financial crisis in such fields as European politics international political economy comparative politics sociology economics contemporary history and more broadly the social sciences and humanities **Atlas du Mali** Anne Lerebours Pigeonnière, Jean-Claude Arnaud, 2001
