I strive to raise public and professional awareness of this disease and serve as an advocate for those who suffer with this disease. I will encourage those in the kidney community to never give up in their search to help their loved ones reach their full potential funding efforts toward this end through appropriate research for finding a cure for both the physical and emotional damage from which so many affected by End Stage Renal Disease suffer. Ultimately I am here to inspire, educate, guide and assist you as you journey through the many stages and challenges of kidney disease and dialysis. This has been one of my callings and it has helped me to deal with what is going on with my body. I want everyone to understand the effects of end stage renal disease and understand that there is hope through dialysis so that no one has to suffer considerably. There is life after this kind of diagnosis and it can be a great one as long as you are educated about what is going on, what your options are and you learn to establish a voice for yourself. Read each chapter slowly and if you do not understand a particular concept, ask your physician or health care team member for advice. Try to understand the key concept presented in each chapter and plan a course of action that will allow you to improve your measurable outcomes and increase your likelihood of living a longer and healthier life. Each of the chapters are designed to help you understand what is going on, what to expect and it is something that can be shared with those within your life so they know the obstacles that you will be facing when you go on dialysis. It is my personal mission to provide useful information that will safeguard the health of all people experiencing kidney disease and dialysis. My knowledge and conscience are dedicated to the fulfillment of this mission.
