Methods in Alcohol-Related Neuroscience Research Yuan Liu, David M. Lovinger, 2002-02-14 Written by a panel of experts Methods in Alcohol Related Neuroscience Research not only provides information of a technical nature but also gives an overview of the many areas in investigating the effects of alcohol on the brain It gives technical guidance for investigators doing research at the molecular cellular systems and behavioral levels These techniques include a wide variety of approaches ranging from gene mapping and examination of molecular interactions of alcohol at the sub cellular level to recording of neural activities in freely behaving animals and imaging alcohol effects on the living human brain Brain Mapping: The Methods Arthur W. Toga, John C. Mazziotta, 2002-10-06 Investigation of the functional architecture of the human brain using modern noninvasive imaging techniques is a rapidly expanding area of research A proper knowledge of methodology is needed to appreciate the burgeoning literature in the field This timely publication provides an excellent catalogue of the main techniques The authors offer an invaluable analysis of mapping strategies and techniques providing everything from the foundations to the major pitfalls and practical applications of the modern techniques used in neuroimaging Contains over 1000 full color pages with more than 200 color figures Spanning the methodological gamut from the molecular level to the whole brain while discussing anatomy physiology and pathology as well as their integration Brain Mapping The Methods Second Edition brings the reader a comprehensive well illustrated and entirely readable description of the methods for brain mapping Drs Toga and Mazziotta provide everything from the foundations to the major pitfalls and practical applications of the technique by assembling an impressive group of experts all widely known in their field who contribute an outstanding set of chapters Indwelling Neural Implants William M. Reichert, 2007-12-17 Despite enormous advances made in the development of external effector prosthetics over the last quarter century significant questions remain especially those concerning signal degradation that occurs with chronically implanted neuroelectrodes Offering contributions from pioneering researchers in neuroprosthetics and tissue repair Indwel Handbook of Biological Confocal Microscopy James Pawley, 2010-08-04 Once the second edition was safely off to the printer the 110 larger world of micro CT and micro MRI and the smaller world authors breathed a sigh of relief and relaxed secure in the belief revealed by the scanning and transmission electron microscopes that they would never have to do that again That lasted for 10 To round out the story we even have a chapter on what PowerPoint years When we nally awoke it seemed that a lot had happened does to the results and the annotated bibliography has been In particular people were trying to use the Handbook as a text updated and extended book even though it lacked the practical chapters needed There As with the previous editions the editor enjoyed a tremendous had been tremendous progress in lasers and ber optics and in our amount of good will and cooperation from the 124 authors understanding of the mechanisms underlying photobleaching and involved Both I and the light microscopy community in general phototoxicity It was time for a new book I contacted the usual owe them all a great debt of gratitude On a more
