## Following the Humble Example of Jesus

Philippians 2:1-18 NIV

## Be Like Jesus!

What does it mean to imitate Jesus? How can we be more like him? This lesson focuses on the incarnation and humility of Christ, described by Philippians 2. As Christians, we will never be fully perfect like Jesus was, but we can still strive to live in humble service as he did. Use the concept of copying and imitating to help kids understand what it means to live after the example of our Savior.

Living like Christ is a tall order, and can seem intimidating or impossible. This passage encourages us to serve others, but even more than that, shows how much Jesus did and does for us. He was God, but did not cling to His divine privileges, choosing to empty Himself and live with us. He came to love and serve us. Jesus gave the ultimate demonstration of humility. In love and gratitude to Him, we put others first because He put us first.

**Passage:** Philippians 2:1-18

**Target Audience:** Kindergarten-5th grade

**Materials Needed:** Construction paper; decorative supplies; glue; markers or crayons; tape; scissors; bags or envelopes; stickers; star objects; small prizes; Bibles.

Human Behavior for Social Work Practice Wendy L. Haight, Edward H. Taylor, Ruth Soffer-Elnekave, 2020. The primary goal of this text is to support social work students in HBSE 1 courses to develop a conceptual framework for understanding and meeting the challenges they will likely encounter in 21st century practice. Through contemporary scholarship in human development ecology and systems theory we build on social work's classic bio-psycho-social-spiritual framework. Our interdisciplinary developmental ecological systems framework addresses the ways in which human beings shape and are shaped within complex and dynamic national and international contexts across the lifespan. We attempt to establish a bridge between undergraduate courses in the social behavioral and biological sciences and social work practice courses. We begin by establishing a framework for understanding human behavior in the social environment through chapters providing an historical overview of the interdisciplinary roots of the developmental ecological systems framework: the brain and development and the role of empirical evidence on social work practice. Then we examine social work issues at various points in human development using specific programs and policies to illustrate developmentally and culturally sensitive social work practice. These chapters include excerpts from interviews with practicing social workers. Part 3 focuses on social work issues affecting individuals across the lifespan and around the globe through chapters on disability and stigmatization, race, racism and resistance, women and gender, and terrorism.
