6.6 Field-oriented Control (FOC)

ADC, Signal Conditioning, Low-pass Filter, PI control, Protection

We will now apply whatever we learned so far to actually control the motor. We are now getting out of the motor per se, and getting into the controller which will control the motor according all the physics about the motor that we have learned so far.

And the best possible control, there are different methods of control that are used different context. The best one that we would recommend for an electric vehicle is what is called field-oriented control.
