What Readers are Saying If you like dystopian novels I would recommend this one for you I felt like I was there The romance was sweet there was pulse pounding action the friendship between the girls was amazing and I was rooting for the characters so hard A couple of chapters in and I was already hooked I ended up staying up till midnight as a mother of a toddler this is a rare occasion in order to finish it I'm Looking forward to seeing what is in store for the colonists It kind of had an initial feel of Battlestar Galactica a civilization that has to abandon their planet and go in search of a new one It had mystery a bit of a thriller like aspect humour and a taste of romance I'm hooked enough for another taste now I just have to wait OH MY GOODNESS I just finished this book at 6 00 AM This society crafted by Autumn Kalquist is fascinating I can't even imagine how much time she spent carefully plotting every detail Their existence feels so real and so frighteningly possible I both love and hate this book but in a good way Instantly I fell in love with the characters and storyline that Kalquist spun together This story is based in the future almost a space opera dystopian where the populations of earth escaped to space to find a better world we arrive in a distant future where civilization exists on space ships and they have to take decades before making jumps across space similar in a way to what I imagine Stargate It pulled me in faster than most books I have read and kept me on the edge of my seat through the end I read it all in just a few hours I started reading Legacy Code and within the first few pages I was hooked it is brilliantly written with detail and imagination from the offset It is also really well edited I am really looking forward to where the next installment of the Legacy Code Saga is going to take me Autumn Kalquist is a talented author LEGACY CODE is easy to read her plot is engaging and her characters are real Her world building is second to none and I felt completely sucked into her story Upon receiving my copy of The Legacy Code I started reading and just could not stop until it was over I found this an enjoyable read as a Young Adult sci fi story The situation was interesting a fleet of spaceships jumping through wormholes in search of a new habitable planet after people on Earth has royally screwed things up including the human genome A young couple expecting a baby had to undergo a genetic test to determine if their unborn baby has the defect which would require it to be aborted This being only the first book of a series the story is relatively short and I was left wanting more which is a sign that the author has captured me the reader successfully Just when you start getting attached to the main characters STUFF HAPPENS And you MUST know what happens NEXT source Legacy Code
