issues from multiple disciplinary perspectives or that advance integrative hypotheses or models that take data from multiple experimental approaches into account are especially encouraged

**Fulfilling the Sustainable Development Goals** Narinder Kakar, Vesselin Popovski, Nicholas A. Robinson, 2021-08-30 This book contains assessment of the progress or the lack of it in implementing the UN Sustainable Development Goals (SDGs). Through review of the assessments and of case studies, readers can draw lessons from the actions that could work to positively address the goals. The 2030 Agenda for Sustainable Development is designed to catalyze action in critical areas of importance to humanity and the planet. The effort to implement the SDGs, however, demands a sense of urgency in the face of environmental degradation, climate change, emerging conflicts, and growing inequality among a number of other socio-economic problems. Five years after the launch of the 2030 Agenda, this book takes stock of how far the world has come and how we can position ourselves to achieve the global targets. The book is one of the first to assess how the implementation is impeded by the onset of COVID-19. It contains a special chapter on COVID-19 and the SDGs, while many thematic chapters on different SDGs also assess how COVID-19 adversely affects implementation and what measures could be taken to minimize the adverse effects. This publication thus provides a fresh look at implementation of the SDGs, highlighting impactful and creative actions that go beyond the business as usual development efforts. The volume reinforces this analysis with expert recommendations on how to support implementation efforts and achieve the SDGs through international and national strategies and the involvement of both the public and private sectors. The result is an indispensable textual tool for policy makers, academia, intergovernmental organizations (IGOs) and non-governmental organizations (NGOs) as well as the public as we march toward the 2030 deadline.

### **The Economics of the Modernisation of Direct Real Estate and the National Estate - a Singapore Perspective**

Kim Hin David HO, 2022-05-11 The Economics of The Modernisation of Direct Real Estate and The National Estate: A Singapore Perspective. Chapter 1 takes a close look at the vector autoregression (VAR) model, offering a dynamic system of solely direct real estate variables for international direct real estate investors and policy makers to enable their decision making. Chapter 2 examines the association of residential price and aggregate consumption. A cross-spectra analysis is helpful to validate because of its model-free characteristics. Chapter 3 is concerned with the underlying housing market dynamics and housing price time series variation via the Singapore SG generalized dynamic factor model (GDFM). Chapter 4 is concerned with the in-depth market analysis and empirical analysis of the structural behavior of the important SG private housing sector. Chapter 5 acknowledges that an in-depth sector analysis and an empirical analysis are imperative to better understand the structural behavior of the SG office sector. Chapter 6 is concerned with the Main Upgrading Programme (MUP), a highly targeted subsidized Housing Development Board (HDB) policy since the 1990s. Chapter 7 recognizes the National Estate, denoting SG's built environment due to physical planning, integrated urban design, and the direct influence of the SG.

government in providing physical infrastructure via government ministries statutory boards and public authorities Chapter 8 offers the book's conclusion      Lone-actor Terrorism Jacob C. Holzer, Andrea J. Dew, Patricia R. Recupero, Paul Gill, 2022 Drawing on insights across clinical and forensic mental health as well as related fields in sociology and security this edited volume provides a diverse yet authoritative overview for those interested in better understanding the threats of lone actor terrorism and its professional response      *Indian Science Abstracts* ,1987      **Environment Abstracts** ,1976 This database encompasses all aspects of the impact of people and technology on the environment and the effectiveness of remedial policies and technologies featuring more than 950 journals published in the U S and abroad The database also covers conference papers and proceedings special reports from international agencies non governmental organizations universities associations and private corporations Other materials selectively indexed include significant monographs government studies and newsletters
