through trial and error many trials and lots of errors His career took him all over Europe and Scandinavia taking musical shows to Norway JCBs to Greece and supermarket deliveries down to Gibraltar Driving for a variety of firms he double manned trucks with his wife Jo for nearly 10 years Along the way he has been blown over in high winds outwitted hijackers and held hostage by striking Spanish drivers Now living on a narrow boat on the Grand Union Canal Mick is approaching retirement and reflects on his varied career With humour and not a little sarcasm he concludes that as good as those days were he certainly wouldn't want to go back

The Doe Tractor Story Stuart Gibbard, 2015-09-04 The Doe Triple D became a legend in its own lifetime It was one of the most unorthodox tractors ever built and had two engines four wheel drive and could articulate through nearly 90 degrees A very successful machine in its own time it has remained a firm favourite among tractor enthusiasts everywhere This illustrated account tells the full story of this remarkable tractor and the company that built it The rise of Essex company Ernest Doe Sons from a village blacksmith's shop to the largest machinery retail organization in East Anglia is traced in detail with full coverage given to the machines it made

The Long Haul Pioneers Ashley Coghill, 2020-02-01 It all started in 1964 when two friends gave up promising medical careers to embark upon a journey which few hardened truckers would have considered In so doing they were solely responsible for creating the first long haul overland route across Europe and deep into the Middle East to Kabul The men had started the Middle East Run was to become a phenomenon in the road haulage industry an image which it still holds today This book is about the company founded by one of those men from its fledgling days as Asian Transport to the thriving Astran Cargo Services Ltd that it is today In this book Ashley Coghill documents the complete history of the company to date with the focus predominantly on the early days when the men were fighting for something and revelling in the adventure These early long haul drivers would think nothing of a 10 000 mile round trip to Iran or the Arabian Gulf and being stranded at 6 000 feet on a mountain pass with temperatures below 40 was just all in a day's work Ashley Coghill has an immense enthusiasm for his subject and has given his research total dedication He has also tracked down past and present employees to gather first hand information which he has illustrated with over 300 carefully selected images The end result is a detailed comprehensive and fascinating account of an extraordinary company

Forty Years with Ford Tractors David Pearson, 2019-10-01 David Pearson spent more than four decades working for Ford's tractor business starting on the production line at the maker's Dagenham factory before moving to the Basildon tractor plant opened in 1964 He went on to become the maker's UK sales manager and earned a reputation among farmers and dealers as the man who knew all there was to know about Ford tractors Along the way he was involved in the development of some of the most famous machines to bear the blue livery from the Dexta to the 7000 and the FW articulated tractors to the 7810 Edited by agricultural journalist Martin Rickatson Forty Years with Ford Tractors builds on a series of recollections which originally featured in Classic Tractor magazine and

It includes a comprehensive selection of black and white and colour photographs many of which have never before been published and will be of interest to all Ford fans and tractor fans more generally. Front cover photograph c Dave Franciosi www.farmingphotography.co.uk **Cola Cowboys** Franklyn Wood, 2010-03-01 This vivid account tells the story of the truckers who were driving from the UK to the Middle East in the early 1980s. The journey was rough, tough, exhausting, dirty, uncomfortable and dangerous. Journalist Franklyn Wood reports that in the course of the one trip we are following seven Britons died in accidents. Among the physical hazards were icy mountain hairpins, unmade roads and desert sandstorms. Human hazards included Kamikaze coach drivers, robbers, mind numbingly slow border controls, rogue police and the temptations of the drivers' favourite watering holes. The route led from Europe through Turkey, Iraq during its war with Iran and on to the wealth and culture shock of Saudi Arabia. The cargoes were often worth a million pounds. Delivering them and returning home for the next load, this was the Olympics of truck driving. **Cola Cowboys** was originally published in 1982 when it proved extremely popular. It has been out of print for many years and has been reprinted by popular demand. **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office, 1959.
