Veronique Strohbach, 2015-08-07 The brain is one of the vastest organs of the human body yet the most misused Research shows us that only 1/3 of its parts are used The only power on earth that can limit you is YOURSELF Ignorance is one of the strongest powers that keeps you in prison and causes you to fail I have good news for you you possess the key to unlock that power and unleash the infinite potential invested in you it is called self discovery Thus the aim of this book is to demonstrate that after going through all kinds of phases the human brain is far beyond scientific discovery and their sayings more capable in achieving anything any person wishes as long as the person has the willingness to succeed against all odds and is in connection with the Creator The Brain is the lodge of your mind the siege of your thought your words ideas and imagination your thinking process and your decision making The size of your brain is therefore defined by how you view yourself you end up where you are not because of some external forces but rather by the series of choices you make each day You have this burning desire to express something to accomplish something remarkable to be recognized to be valuable do not settle for less Destiny is to be discovered and not to be decided by people around you This book highlights the correlation between brain mind and body interaction and brainheart **Understanding the Purpose and Power of Prayer** Myles Munroe, 2003 God God Almighty God the Creator of man this same God in all His power and all His majesty stops and listens when you pray All that God is
