- The Emotional Maturity Scale was developed by Singh and Bhargava (1991). - Emotional maturity plays a major role in the life of an individual. It prepares an individual for better adjustment. It leads to both realism and inhibition of emotional reactions.
- Emotional maturity thus enables individuals to see himself, his family and various other forces in his environment in their true perspective. Emotional maturity essentially involves emotional control. It involves the kind of living that most richly and fully expresses what a person has in him at any level of his
