The Lewis and Clark Corps of Discovery is often presented as an exciting adventure story of discovery friendship patriotism However when viewed through a non colonial lens this same period in U S History can be understood quite differently In BEYOND ADVENTURE the authors provide a conceptual framework ready to use lesson plans and teaching resources to address oversimplified versions of the Lewis and Clark expedition The American Teacher ,1885 **McDougal Littell Literature** McDougal-Littell Publishing Staff, 2007-09-05 **Asian/American Curricular Epistemicide** Nicholas D. Hartlep, Daniel P. Scott, 2016-08-18 In this important book Nicholas Hartlep and Daniel Scott s detailed analyses on both visual and historical representations of Asian Americans in textbooks and teacher manuals used in our elementary and secondary schools poignantly tell us that generations of children are growing up being fed this single story about Asian Americans As Hartlep and Scott write Asian Americans have once again been constructed as the good minority that can succeed on their own and be used as a political instrument to shame the Blacks for their underachievement and their fight for equality Over and over again the media has been telling a single story about Asian Americans to the public for the past fifty years The consequence of this fabricated story is that it discourages others even Asian Americans themselves from believing in the validity of their struggles Linshi 2014 p 1 **The American Biology Teacher** ,2007 *The Americans* McDougal Littell, 2002-03 **American Primary Teacher** ,1897 *Mining American* ,1904 **American History** ,2008
