*Childhood and Nation* Zsuzsanna Millei, Robert Imre, 2016-04-29 *Childhood and Nation* explores the historical and manifold current relations between nation and childhood Millei and Imre bring together an international and interdisciplinary group of scholars to address many pressing questions of today The analytical incisions created by nation and childhood bring answers to the following questions How do national agendas related to economic social and political problems exploit children and tighten their regulation How do representations of nations take advantage of ideals of childhood Why do nations look to children and search for those characteristics of childhood that help them solve environmental and humanitarian issues The book offers a fresh look at the theme of nation and childhood by offering multiple methodologies from fields including education policy studies political science sociology anthropology literature and psychology Canon Constitution

and Canon Change in Children's Literature Bettina Kümmerling-Meibauer, Anja Muller, 2016-12-01 This volume focuses on the de canonization processes in children's literature considering the construction and cultural historical changes of canons in different children's literatures Chapters by international experts in the field explore a wide range of different children's literatures from Great Britain Germany Scandinavia the Low Countries Eastern and Central Europe as well as from Non European countries such as Australia Israel and the United States Situating the inquiry within larger literary and cultural studies conversations about canonicity the contributors assess representative authors and works that have encountered changing fates in the course of canon history Particular emphasis is given to sociological canon theories which have so far been under represented in canon research in children's literature The volume therefore relates historical changes in the canon of children's literature not only to historical changes in concepts of childhood but to more encompassing political social economic cultural and ideological shifts This volume's comparative approach takes cognizance of the fact that if canon formation is an important cultural factor in nation building processes a comparative study is essential to assessing transnational processes in canon formation This book thus renders evident the structural similarities between patterns and strategies of canon formation emerging in different children's literatures Australian Book Review ,2005 **The School**
